Title: NESHAP for Site Remediation (Renewal).

ICR Numbers: EPA ICR Number 2062.05, OMB Control Number 2060-0534.

ICR Status: This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart GGGGG.

Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 245 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operator of site remediation facilities.

Estimated Number of Respondents: 286.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 140,338.

Estimated Total Annual Cost: \$14,302,488, which includes \$13,720,488 in labor costs, no capital/startup costs, and \$582,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in labor hours and costs from the most recent ICR. This is

not due to any program changes. The increase in labor hours is due to a change in the burden calculation methodology. The previous ICR did not account for managerial and clerical hours for some burden activities. This ICR assumes that managerial and clerical hours are 5 percent and 10 percent of technical hours for each burden activity, respectively. The increase in costs is due to an increase in labor rates, as well as the methodology change described above.

John Moses,

Director, Collection Strategies Division.
