SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting panel opinions regarding the strengths

and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the individual workshop agendas are as follows:

SEDAR 33 Data Workshop, May 20–24, 2013

1. Assessment data sets and associated documentation will be developed.
2. Participants will evaluate all available data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

SEDAR 33 Assessment Workshop Webinars, July 22–October 9, 2013

Participants will review modeling efforts, suggest sensitivity analyses, and decide upon an appropriate model run or set of model runs to put forward to the Review Workshop for each species assessed.

SEDAR 33 Review Workshop, November 18–21, 2013

Panelists will review the assessments and document their comments and recommendations in a Consensus Summary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are accessible to people with disabilities. Requests for auxiliary aids should be directed to the SEDAR office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Taking Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to an Exploration Drilling Program in the Chukchi Sea, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; withdrawal of an incidental take authorization application.

SUMMARY: Notice is hereby given that ConocoPhillips Company (COP) has withdrawn its application for an Incidental Harassment Authorization (IHA). The following action is related to a proposed IHA to COP for the take of small numbers of marine mammals, by Level B harassment, incidental to conducting offshore exploration drilling on Outer Continental Shelf (OCS) leases in the Chukchi Sea, Alaska, during the 2014 open-water season.

ADDRESSES: A copy of the application, which contains several attachments, including COP's marine mammal mitigation and monitoring plan and Plan of Cooperation, can be viewed on the internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>.

FOR FURTHER INFORMATION CONTACT: Candace Nachman, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On December 6, 2012, NMFS received a complete application from COP requesting an IHA. The requested IHA was for an authorization to take, by Level B harassment, small numbers of 12 marine mammal species incidental to COP's offshore exploration drilling in the Chukchi Sea during the 2014 open-

water season. NMFS published a Notice of Proposed IHA, initiating a 30-day public comment period, on February 22, 2013 (78 FR 12542). We then published a notice extending the comment period by 45 days on March 28, 2013 (78 FR 18965). On April 22, 2013, NMFS accepted notice from COP withdrawing their IHA application for the proposed action. COP has deferred the plan to drill an exploratory well at the Devils Paw Prospect in the Chukchi Sea during the 2014 open-water season.

Dated: April 23, 2013.

Helen M. Golde,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.
