DEPARTMENT OF DEFENSE

Department of the Army

Final Environmental Impact Statement for the Construction and Operation of an Infantry Platoon Battle Course at Pōhakuloa Training Area, Hawai'i

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Pacific
(USARPAC) and U.S. Army Garrison,
Hawai'i, (USAG–HI) propose to
construct and operate a modern Infantry
Platoon Battle Course (IPBC) and
associated infrastructure that is
compliant with current Army training
requirements at Pōhakuloa Training

Area (PTA), Hawai'i. The proposed
IPBC would support the live-fire
collective training needs of the Army,
Army Reserve, and Hawai'i Army
National Guard, as well as other Service
components that are stationed or train
in Hawai'i.

Two alternatives were analyzed in the
EIS: the Western Range Area Alternative
(preferred) and the Charlie Circle
Alternative. Both proposed IPBC
alternative locations are in under-
utilized portions of the PTA impact area
where no ranges currently exist. These
locations have been exposed to indirect
munitions fire, and the proposed action
would reclaim portions of the impact
area to construct the IPBC. A third
alternative analyzed in the Draft
Programmatic Environmental Impact
Statement (PEIS), Southwest of Range
20, is not operationally feasible and has
been eliminated from the Final EIS. The
Army also considered a No Action
Alternative to not build the IPBC. For all
alternatives (except for the No Action),
the IPBC would be used for 242 training
days per year.

The Army identified and analyzed
environmental and socioeconomic
impacts associated with the proposed
IPBC. The major potential
environmental impacts are to air
quality, cultural sites, threatened and
endangered species, encountering
munitions and explosives of concern,
and igniting wildfires. Cultural
resources could also be significantly
impacted. The Army consulted with the
USFWS on potential mitigation
measures to protect federally-listed
species. The USFWS issued a Biological
Opinion (BO) pursuant to Section 7 of
the Endangered Species Act on January
11, 2013. The Army also consulted with
the State Historic Preservation Division,
Advisory Council on Historic
Preservation, and other consulting
parties, including Native Hawaiian
organizations, about potential effects on
cultural resources and mitigation of
those effects. The Army and the
consulting parties are in the process of
signing a Programmatic Agreement (PA)
pursuant to Section 106 of the National
Historic Preservation Act. The PA
establishes how the remaining steps to
the Section 106 consultation will be
completed and the mitigation measures
for the potential adverse effects on
cultural resources. The PA will be
signed prior to the Army issuing a
Record of Decision for the proposed
action.

DATES: The waiting period for the Final
EIS will end 30 days after publication of
the NOA in the **Federal Register** by the
U.S. Environmental Protection Agency.
