SUPPLEMENTARY INFORMATION:

A. Purpose

FAR Subparts 28.1 and 28.2; FAR clauses at 52.228-1, 52.228-2, 52.228-13, 52.228-15, 52.228-16; and associated FAR standard forms implement the statutory requirements of

the Miller Act (40 U.S.C. 3131 *et seq.*), which requires performance and payment bonds for any construction contract exceeding \$150,000, unless it is impracticable to require bonds for work performed in a foreign country, or it is otherwise authorized by law. In addition, the note to 40 U.S.C. 3132, entitled "Alternatives to Payment Bonds Provided by the Federal Acquisition Regulation," is implemented in the FAR, which requires alternative payment protection for construction contracts that exceed \$30,000 but do not exceed \$150,000. Although not required by statute, under certain circumstances the FAR permits the Government to require bonds on other than construction contracts. In addition to the contract clauses at FAR 52.228-1, 52.228-2, 52.228-13, 52.228-15, 52.228-16, this information collection covers the following FAR standard forms (SF) as prescribed at FAR Subparts 28.1 and 28.2: SF 25, Performance Bond; SF 25A, Payment Bond; SF 273, Reinsurance Agreement for a Miller Act Performance Bond; SF 274, Reinsurance Agreement for a Bonds Statute Payment Bond; SF 24, Bid Bond; SF 25B, Continuation Sheet (For Standard Forms 24, 25, and 25A); Standard Form 34, Annual Bid Bond; Standard Form 275, Reinsurance Agreement in Favor of the United States; Standard Form 1416, Payment Bond for Other Than Construction Contracts; Standard Form 1418, Performance Bond for Other Than Construction Contracts; and Standard Form 35, Annual Performance Bond. The information collected under this clearance provides the Government with a form of security that the contractor will not withdraw a bid or assures that the contractor will perform its obligations under a contract.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

B. Analysis of Public Comments

A notice was published in the **Federal Register** at 77 FR 61580, October 10, 2012. One respondent submitted public

comments on the extension of the previously approved information collection. The analysis of public comments is summarized as follows:

Comment: The respondent commented on the need for revisions to the standard forms. The respondent suggested that (1) changes be made to the standard forms covered under the information collection to include an additional option regarding the bond principal's "Type of Organization" (i.e., SF 25, SF 25A, SF 24, SF 34, SF 1416, SF 1418, SF 35). Specifically, the respondent requested that an additional check box be added allowing for the choice of "Limited Liability Company (LLC)" to the forms, or, in the alternative, to include a selection of "other". The respondent indicated that construction companies are increasingly forming as limited liability companies, a hybrid type of organization reflecting characteristics of a corporation and of a partnership. The proposed revision would recognize limited liability companies as a type of organization; and (2) the instructions governing the blank space "Liability Limit (\$)" (on forms SF 25, 25A, SF 24, SF 25B, SF 1416, SF 1418) should be enhanced to make clear the intent of the information requested. The respondent, a national trade association of firms employing professional surety bond producers, reported that some confusion exists as to whether the blank refers to the underwriting limitation of the surety as found on the Treasury List of Approved Sureties or if it is intended to indicate a limitation on the surety's liability on the bond.

Response: Because the respondent's suggestions neither question nor affect the information collection estimates included in this request for extension, the request for approval to extend this information collection will be submitted without change. However, the suggested standard form revisions will be researched, and, as determined appropriate, revised as separate actions.

C. Annual Reporting Burden

The estimated annual reporting burden is increased since published in the **Federal Register** at 74 FR 46988, on September 14, 2009. Based on use of data, from the Federal Procurement Data System, for fiscal year 2011, an upward adjustment is made to the estimated annual reporting burden.
