
The worker groups at the Lester and Philadelphia facilities do not include leased workers.

Based on a careful review and clarification of previously-submitted information and additional information obtained during the reconsideration investigation, the Department determines that increased imports of refined petroleum products produced by Sunoco contributed importantly to workers’ separations and to the decline in sales or production at the afore-identified facilities.

Section 222(a)(1) has been met because a significant number or proportion of the workers at Sunoco have become totally or partially separated, or are threatened with such separation.

Section 222(a)(2)(A)(i) has been met because Sunoco sales and/or production of refined petroleum products have decreased.

Section 222(a)(2)(A)(ii) has been met because aggregate imports of articles like or directly competitive with the refined petroleum products produced by Sunoco have increased during the period of Sunoco’s sales and/or production decline.

Finally, Section 222(a)(2)(A)(iii) has been met because increased aggregate imports contributed importantly to the worker group separations and sales/production declines at Sunoco.

Conclusion

After careful review of previously-submitted facts and the additional facts obtained during the reconsideration investigation, I determine that workers of Sunoco, Inc., R&M, Refining Division, including on-site leased workers, Marcus Hook, Pennsylvania (TA–W–81,145), Sunoco, Inc., R&M, Lester, Pennsylvania (TA–W–81,145A), and Sunoco, Inc., R&M, Philadelphia, Pennsylvania (TA–W–81,145B), who were engaged in employment related to the production of refined petroleum products, meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. 2227(a). In accordance with Section 223 of the Act, 19 U.S.C. 2273, I make the following certification:

Signed in Washington, DC, this 28th day of March 2013.

Certifying Officer, Office of Trade Adjustment Assistance.
