Estimated Reporting and Recordkeeping Non-Hour Cost Burden:

We have identified no reporting and recordkeeping non-hour cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . . .” Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the non-hour cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components, annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Availability of Comments:

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: February 20, 2013.

Deanna Meyer-Pietruszka,
Chief, Office of Policy, Regulations, and Analysis.

DEPARTMENT OF THE INTERIOR
Bureau of Ocean Energy Management
[OMB Number 1010–0184]

Information Collection: Northern Alaska Native Community Surveys; Proposed Collection for OMB Review; Comment Request MMAA104000

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) pertains to two surveys conducted in northern coastal Alaska communities.

DATES: Submit written comments by July 1, 2013.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Arlene Bajusz, Bureau of Ocean Energy Management, 381 Elden Street, HM–3127, Herndon, Virginia 20170 (mail); or arlene.bajusz@boem.gov (email); or 703–787–1209 (fax). Please reference ICR 1010–0184 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Arlene Bajusz, Office of Policy, Regulations, and Analysis at (703) 787–1025. You may also request a free copy of the surveys. For more information on the surveys, contact Chris Campbell in the BOEM Alaska Regional Office at (907) 334–5264.

SUPPLEMENTARY INFORMATION: OMB Control Number: 1010–0184.
Title: Northern Alaska Native Community Surveys.

Abstract: With this information collection renewal, the Bureau of Ocean Energy Management (BOEM) is updating the target communities for the original survey and requesting approval of a second survey. The BOEM conducts these surveys because the Outer Continental Shelf (OCS) Lands Act (OCSLA) [Pub. L. 95–372, Sec. 20], and its subsequent amendments, requires the Secretary of the Department of the Interior (DOI) to monitor and assess the impacts of resource development activities in Federal waters on human, marine, and coastal environments. The OCSLA amendments authorize the Secretary of the Interior to conduct studies in areas or regions of lease sales to ascertain the "environmental impacts on the marine and coastal environments of the outer Continental shelf and the coastal areas which may be affected by oil and gas development" (43 U.S.C. 1346).

The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321–4347) requires that all Federal agencies use a systematic, interdisciplinary approach to ensure the integrated use of the natural and social sciences in any planning and decision making that may have an effect on the human environment. The Council on Environmental Quality’s Regulations for Implementing Procedural Provisions of NEPA (40 CFR 1500–1508) state that the "human environment” is to be "interpreted comprehensively” to include “the natural and physical environment and the relationship of people with that environment” (40 CFR 1508.14). An action’s “aesthetic, historic, cultural, economic, social or health” effects must be assessed, “whether direct, indirect, or cumulative” (40 CFR 1508.8).

The BOEM is the DOI agency that conducts OCS lease sales and monitors and mitigates adverse impacts that might be associated with offshore resource development. The BOEM Environmental Studies Program implements and manages the responsibilities of research. The surveys in this collection will facilitate the meeting of DOI/BOEM information needs on subsistence food harvest and sharing activities in various coastal Alaska areas, with specific focus on the coastal Alaska communities in the North Slope area.

This information collection (IC) request involves two data collection surveys. The first survey, Study of Sharing to Assess Community Resilience (Resiliency Study), will assess the vulnerabilities of North Slope coastal communities to the potential effects of offshore oil and gas development on subsistence food harvest and sharing activities. It will investigate the resilience of local sharing networks that structure contemporary subsistence-cash economies using survey research methods that involve residents of four communities most proximate to proposed exploration areas (Barrow, Nuiqsut, Point Lay, Point Hope). The second survey, Social Indicators in Coastal Alaska: Arctic Communities (Social Indicators Study), will assess the well-being and living conditions of residents in six North Slope coastal communities (Barrow, Point Hope, Wainwright, Nuiqsut, Kaktovik, Point Lay).

The BOEM will use the information collected to learn about local social systems and well-being in a way that may shape development strategies and serve as an interim baseline for impact monitoring to compare against future research in these areas. Without these data, BOEM will not have sufficient information to make informed oil and gas leasing and development decisions for these areas. The studies will help BOEM identify and mitigate impacts of offshore oil and gas exploration and development on Native communities.

Survey Instruments: The research will be collected from two voluntary surveys. The Resiliency Study will be given to each head of household in the study communities to collect information about the subsistence (harvest data) and sharing networks of the communities. The Social Indicators Study will be given to a randomly selected adult in each selected household in the study communities to collect information about well-being and living conditions. Survey questions are tailored to each community as appropriate, depending on the location of the community and surrounding plants and animals.

Interview Methods: The interviews for each survey will be conducted in person in a setting most comfortable for the respondents. This personal method is more expensive and time consuming for the researchers, but these drawbacks are outweighed by improvements in the quality of information obtained and the rapport established between the surveyor and the person interviewed. Telephone interviews have not been successful on the North Slope. Each respondent will be paid an honorarium for taking part in the study. Responses are voluntary.

Frequency: One-time event for each study.

Description of Respondents: Respondents are members of the Alaskan coastal communities in the North Slope area.

Estimated Reporting and Recordkeeping Hour Burden: With this renewal, we are updating the target communities for the Resiliency Survey and requesting approval of the second survey, Social Indicators Study.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no non-hour paperwork cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obliged to respond.

Comments: We invite comments on:
(1) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether
the information is useful; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (4) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Deanna Meyer-Pietszuska,
Chief, Office of Policy, Regulations, and Analysis.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–879]

Certain Sleep-Disordered Breathing Treatment Systems and Components Thereof: Institution of Investigation Pursuant to 19 U.S.C. 1337

ACTION: Notice.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on March 28, 2013, under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, on behalf of ResMed Corporation of San Diego, California; ResMed Incorporated of San Diego, California; and ResMed Limited of Australia. A letter supplementing the Complaint was filed on April 19, 2013. The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain sleep-disordered breathing treatment systems and components thereof by reason of infringement of certain claims of U.S. Patent No. 6,216,691 (the ‘‘691 patent’’), U.S. Patent No. 6,935,337 (the ‘‘337 patent’’), U.S. Patent No. 7,159,587 (the ‘‘587 patent’’), U.S. Patent No. 7,487,772 (the ‘‘772 patent’’), U.S. Patent No. 7,614,398 (the ’398 patent’’), U.S. Patent No. 7,743,767 (the ’767 patent’’), and U.S. Patent No. 7,997,267 (the ’267 patent’’). The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337.

The complainants request that the Commission institute an investigation and, after the investigation, issue an exclusion order and cease and desist orders.

ADRESSES: The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Room 112, Washington, DC 20436, telephone (202) 205–2000. Hearing impaired individuals are advised that information on this matter may be obtained by contacting the Commission’s TDD terminal on (202) 205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at (202) 205–2000. General information concerning this investigation may also be obtained by accessing its internet server at http://www.usitc.gov. The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at http://edis.usitc.gov.

Scope of Investigation

Having considered the complaint, the U.S. International Trade Commission, on April 24, 2013, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain sleep-disordered breathing treatment systems and components thereof that infringe one or more of claims 1, 2, 4, 5, 17 and 28 of the ’691 patent; claims 1 and 20 of the ’337 patent; claim 15 of the ’587 patent; claims 1, 5, 6, 11, 12, 18–20, 35 and 36 of the ’772 patent; claims 1–7 of the ’398 patent; claims 59, 60, 63, 72–75 of the ’767 patent; and claims 17, 21–24, 29, 32–37 of the ’267 patent, and whether an industry in the United States exists as required by subsection (a)(2) of section 337;

(2) For the purpose of the investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainants are: ResMed Corporation, 9001 Spectrum Center Drive, San Diego, CA 92123.

(b) The respondents are the following entities alleged to be in violation of section 337, and are the parties upon which the complaint is to be served: Apex Medical Corporation, No. 9, Min Sheng Street, Tu-Cheng, New Taipei City, 23679, Taiwan.

Medical Depot Incorporated, d/b/a Drive Medical Design & Manufacturing, 99 Seaview Boulevard, Suite 210, Fort Washington, New York 11050.

(c) The Office of Unfair Import Investigations, U.S. International Trade Commission, 500 E Street SW., Suite 401, Washington, DC 20436; and

(3) For the investigation so instituted, the Chief Administrative Law Judge, U.S. International Trade Commission, shall designate the presiding Administrative Law Judge.

Responses to the complaint and the notice of investigation must be submitted by the named respondents in accordance with section 210.13 of the Commission’s Rules of Practice and Procedure, 19 CFR 210.13. Pursuant to 19 CFR 201.16(d)–(e) and 210.13(a), such responses will be considered by the Commission if received not later than 20 days after the date of service by the Commission of the complaint and the notice of investigation. Extensions of time for submitting responses to the complaint and the notice of investigation will not be granted unless good cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the
