Farm Service Agency

Title: Highly Erodible Land Conservation and Wetland Conservation (7 CFR Part 12)

OMB Control Number: 0560–0185.

Summary of Collection: The Food Security Act of 1985 as amended by the Federal Agriculture Conservation and Trade Act of 1990 and the Federal Agriculture Improvement and Reform Act of 1996 (the 1996 Act), and the Agricultural Assistance Act of 2003 (the 2003 Act) provides that any person who produces an agricultural commodity on a field which is highly erodible land (HEL) is predominate, or designate land on which HEL is predominated to be set aside, diverted, devoted to conservation uses, or otherwise not cultivated under a program administered by the Secretary to reduce production of an agricultural commodity, shall be ineligible for benefits under certain programs administered by USDA, unless the production of an agricultural commodity on HEL is in compliance with an approved conservation plan or system or an exempt applies. These provisions are an attempt to preserve the nation's wetland and to reduce the rate at which soil is lost from highly erodible land. In order to ensure that persons who request benefits subject to the conservation restrictions get technical assistance needed and are informed regarding the compliance requirements on their land, the Farm Service Agency (FSA) collects information using several forms from producers with regard to their financial activities on their land that could affect their eligibility for requested USDA benefits.

Need and Use of the Information: Information must be collected from producers to certify that they intend to comply with the conservation requirements on their land to maintain their eligibility. Additional information may be collected if producers request that certain activities be exempt from provisions of the statute in order to evaluate whether the exempted conditions will be met. The collection of information allows the FSA county employees to perform the necessary

compliance checks and fulfill USDA's objectives towards preserving wetlands and reducing erosion.

Description of Respondents: Individuals or households; Business or other for-profit; Not-for-profit institutions; Federal Government; State, Local or Tribal Government.

Number of Respondents: 259,288.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 261,471.

Ruth Brown,

Departmental Information Collection Clearance Officer.
