Catalog of Federal Domestic Assistance (CFDA) Number: 20.910 Assistance to Small and Disadvantaged Businesses.
1. Introduction

1.1 Background

The Department of Transportation (DOT) established Office of Small and Disadvantaged Business Utilization (OSDBU) in accordance with Public Law 95–507, an amendment to the Small Business Act and the Small Business Investment Act of 1958. The mission of OSDBU at DOT is to ensure that the small and disadvantaged business policies and goals of the Secretary of Transportation are developed and implemented in a fair, efficient and effective manner to serve small and disadvantaged businesses throughout the country. The OSDBU also administers the provisions of Title 49, Section 332, the Minority Resource Center (MRC) which includes the duties of advocacy, outreach and financial services on behalf of small and disadvantaged business and those certified under CFR 49 parts 23 and or 26 as Disadvantaged Business Enterprises (DBE) and the development of programs to encourage, stimulate, promote and assist small businesses to become better prepared to compete for, obtain and manage transportation-related contracts and subcontracts.

The Regional Assistance Division of OSDBU, through the SBTRC program, allows OSDBU to partner with local organizations to offer a comprehensive delivery system of business training, technical assistance and dissemination of information, targeted towards small business transportation enterprises in their regions.

1.2 Program Description and Goals

The national SBTRC program utilizes Cooperative Agreements with chambers of commerce, trade associations, educational institutions and business-centered community based organizations to establish SBTRCs to provide business training, technical assistance and information to DOT grantees and recipients, prime contractors and subcontractors. In order to be effective and serve their target audience, the SBTRCs must be active in the local transportation community in order to identify and communicate opportunities and provide the required technical assistance. SBTRCs must already have, or demonstrate the ability to, establish working relationships with the state and local transportation agencies and technical assistance agencies (i.e., The U.S. Department of Commerce’s Minority Business Development Centers (MBDCs), Small Business Development Centers (SBDCs), and Procurement Technical Assistance Centers (PTACs), SCORE and State DOT highway supportive services contractors in their region. Utilizing these relationships and their own expertise, the SBTRCs are involved in activities such as information dissemination, small business counseling, and technical assistance with small businesses currently doing business with public and private entities in the transportation industry.

Effective outreach is critical to the success of the SBTRC program. In order for their outreach efforts to be effective, SBTRCs must be familiar with DOT’s Operating Administrations, its funding sources, and how funding is awarded to DOT grantees, recipients, contractors, subcontractors, and its financial assistance programs. SBTRCs must provide outreach to the regional small business transportation community to disseminate information and distribute DOT-published marketing materials, such as Short Term Lending Program (STLP) Information, Bonding Education Program (BEP) information, brochures and literature, Procurement Forecasts; Contracting with DOT booklets, Women and Girls in Transportation Initiative (WITI) information, and any other materials or resources that DOT or OSDBU may develop for this purpose. To maximize outreach, the SBTRC may be called upon to participate in regional and national conferences and seminars. Quantities of DOT publications for on-hand inventory and dissemination at conferences and seminars will be available upon request from the OSDBU office.

1.3 Description of Competition

The purpose of this Request For Proposal (RFP) is to solicit proposals from transportation-related trade associations, chambers of commerce, community based entities, colleges and universities, community colleges, and any other qualifying transportation-related non-profit organizations with the desire and ability to partner with OSDBU to establish and maintain an SBTRC.

It is OSDBU’s intent to award a Cooperative Agreement to one organization in the Southeast Region, from herein referred to as “region”, in this solicitation. However, if warranted, OSDBU reserves the option to make multiple awards to selected partners. Proposals submitted for a region must contain a plan to service all states listed in the entire region, not just the SBTRC’s state or local geographic area. The region’s SBTRC headquarters must be established in one of the designated
states set forth below. Submitted proposals must also contain justification for the establishment of the SBTRC headquarters in a particular city within the designated state.

SBTRC Region Competed in This Solicitation:

Southeast Regions:
Florida
Alabama
Mississippi
Puerto Rico
United States Virgin Island

Program requirements and selection criteria, set forth in Sections 2 and 4 respectively, indicate that the OSDBU intends for the SBTRC to be multidimensional; that is, the selected organization must have the capacity to effectively access and provide supportive services to the broad range of small businesses within the respective geographical region. To this end, the SBTRC must be able to demonstrate that they currently have established relationships within the geographic region with whom they may coordinate and establish effective networks with DOT grant recipients and local/regional technical assistance agencies to maximize resources. Cooperative agreement awards will be distributed to the region(s) as follows:

Southeast Region:
Ceiling: $150,000 per year
Floor: $125,000 per year

Cooperative agreement awards by region are based upon an analysis of DBEs, Certified Small Businesses, and US DOT transportation dollars in each region.

It is OSDBU’s intent to maximize the benefits received by the small business transportation community through the SBTRC. Funding may be utilized to reimburse an on-site Project Director up to 100% of salary plus fringe benefits, an on-site Executive Director up to 20% of salary plus fringe benefits, up to 100% of a Project Coordinator salary plus fringe benefits, the cost of designated SBTRC space, other direct costs, and all other general and administrative expenses. Selected SBTRC partners will be expected to provide in-kind administrative support. Submitted proposals must contain an alternative funding source with which the SBTRC will fund administrative support costs. Preference will be given to proposals containing in-kind contributions for the Project Director, the Executive Director, the Project Coordinator, cost of designated SBTRC space, other direct costs, and all other general and administrative expenses.

1.4 Duration of Agreements
The cooperative agreement will be awarded for a period of 12 months (one year) with options for two (2) additional one year periods. OSDBU will notify the SBTRC of our intention to exercise an option year or not to exercise an option year 30 days in advance of expiration of the current year.

1.5 Authority
DOT is authorized under 49 U.S.C. 332 (b) (4), (5) & (7) to design and carry out programs to assist small disadvantaged businesses in getting transportation-related contracts and subcontracts; develop support mechanisms, including management and technical services, that will enable small disadvantaged businesses to take advantage of those business opportunities; and to make arrangements to carry out the above purposes.

1.6 Eligibility Requirements
To be eligible, an organization must be an established, nonprofit, community-based organization, transportation-related trade association, chamber of commerce, college or university, community college, and any other qualifying transportation-related non-profit organization which has the documented experience and capacity necessary to successfully operate and administer a coordinated delivery system that provides access for small businesses to prepare and compete for transportation-related contracts.

In addition, to be eligible, the applicant organization must:
(A) Be an established 501 C (3) or 501 C (6) tax-exempt organization and provide documentation as verification. No application will be accepted without proof of tax-exempt status;

Prior performance providing services to the transportation community is preferable, but not required; and

2. Program Requirements

2.1 Recipient Responsibilities

The data gathered must be supportive of the narrative and must relate to the numerical data on the monthly reports.

3. Develop a “targeted” database of firms (100–150) that have the capacity and capabilities, and are ready, willing and able to participate in DOT contracts and subcontracts immediately. 5. Conduct outreach and disseminate information to small businesses at regional transportation-related conferences, seminars, and workshops. In the event that the SBTRC is requested to participate in an event, the SBTRC will send DOT materials, the OSDBU banner and other information that is deemed necessary for the event.

6. Submit a conference summary report to OSDBU no later than 5 business days after participation in the event or conference. The conference summary report must summarize activities, contacts, outreach results, and recommendations for continued or discontinued participation in future similar events sponsored by that organization.

ACTION: Notice of application for renewal and expansion of exemption; request for comments.

SUMMARY: The American Pyrotechnics Association (APA) has requested a renewal of its exemption for 48 APA member-companies from FMCSA’s regulation that drivers of commercial motor vehicles (CMVs) may not drive after the 14th hour after coming on duty, and the expansion of its exemption to 10 additional carriers. The APA was previously granted an exemption for 48 of the 58 APA member-companies during the Independence Day periods in 2011 and 2012. Like the other 48 member-companies that operated under the 2011–2012 exemption, the 10 additional member-companies would be subject to all of the terms and conditions of the exemption for the 2013–2014 periods. The exemption would apply solely to the operation of CMVs by these 58 APA-member companies in conjunction with staging fireworks shows celebrating Independence Day during the periods June 28–July 8, 2013, and June 28–July 8, 2014, inclusive. During these two periods, approximately 3,200 CMVs and drivers employed by these APA member-companies would be allowed to exclude off-duty and sleeper-berth time of any length from the calculation of the 14-hour driving window. These drivers would not be allowed to drive after accumulating a total of 14 hours of on-duty time, following 10 consecutive hours off duty, and would continue to be subject to the 11-hour driving time limit, and the 60- and 70-hour on-duty limits. The APA maintains that the terms and conditions of the limited exemption would ensure a level of safety equivalent to, or greater than, the level of safety achieved without the exemption.

DATES: If granted, this exemption would be effective during the periods of June 28, 2013, through July 8, 2013, inclusive, and June 28, 2014, through July 8, 2014, inclusive. The exemption would expire on July 8, 2014 at 11:59 p.m. Comments must be received on or before June 6, 2013.
