III. Background

This proposed rule would revise and reorganize the regulations governing the Coast Guard Auxiliary. The Coast Guard Auxiliary regulations were last updated in 2003 (68 FR 9534, Feb 28, 2003) and 1996 (61 FR 33662, June 28, 1996), but these changes did not address all of the legislative changes being addressed in this proposed rule. Through this proposed rule, the Coast Guard would update the regulations in accordance with recent legislation; clarify Auxiliary powers, duties, and organization; amend provisions regarding Auxiliary membership; and address other administrative matters. These changes would address several problems common to Auxiliary units.

First, this proposed rule is necessary to conform Coast Guard regulations to current law. The following changes to the Auxiliary’s governing statutes, codified at Title 14, Chapter 23 of the U.S. Code (collectively referred to in this document as “legislative changes”) are addressed by this rulemaking:

• The Coast Guard and Maritime Transportation Act of 2012 (Pub. L. 112–213) section 215, extending eligibility for Auxiliary membership to nationals of the United States and aliens lawfully admitted for permanent residence.
• The Coast Guard and Maritime Transportation Act of 2006 (Pub. L. 109–241) section 208, authorizing the Auxiliary to use motor vehicles in support of Auxiliary functions and duties.
• The Coast Guard and Maritime Transportation Act of 2004 (Pub. L. 108–293), section 226, allowing personal property of the Auxiliary to be treated as United States property for liability purposes.
• The Coast Guard Authorization Act of 1996 (Pub. L. 104–324) (“The 1996 Act”) authorizing the Auxiliary organizational structure, extending civil liability protection to Auxiliary units and members, and authorizing the Auxiliary to form a corporation. The 1996 Act also redefined the purpose of
the Auxiliary, “to assist the Coast Guard . . . in performing any Coast Guard function . . . .” The previous definition enumerated specific missions (promoting safety, effecting rescues, promoting efficiency in the operation of motorboats and yachts, and fostering wider knowledge of boating laws), along with a catch-all provision (“facilitate other operations of the Coast Guard.”).

• The Coast Guard Authorization Act of 1986 (Pub L. 99–640) authorized the payment of interest on reimbursement claims.

• In 2006, conforming amendments to 14 U.S.C. 821(b) and 823a(b) in The Act to Complete the Codification of Title 46, United States Code, “Shipping,” as Positive Law (Pub. L. 109–304) made non-substantive, editorial changes to 14 U.S.C. 821(b) and 823a(b).

Second, this proposed rule would clarify the organization of the Auxiliary and the authority given to Auxiliary units and officers to conduct Auxiliary business. This change is necessary to help Auxiliary units interact with commercial service providers, such as banks and insurance companies, who may be reluctant to enter into a business relationship with an Auxiliary unit without a better understanding of the nature of the Auxiliary and its relationship with the regular Coast Guard.

Third, the proposed rule would clarify for operational commanders the Auxiliary’s ability to participate in Coast Guard operations and to work with other federal, state and local agencies.

Finally, this proposed rule would reorganize the Auxiliary regulations by eliminating unnecessary sections and organizing 33 CFR part 5 into five subject-oriented subparts, making it easier to find regulations about particular topics.

Consistent with these objectives, the Coast Guard proposes to revise and reorganize the regulations at 33 CFR part 5.

IV. Discussion of Proposed Rule

This discussion provides both a summary and a section-by-section analysis of proposed changes to regulations in 33 CFR part 5. Generally, existing sections are removed entirely, revised, or moved to another section (where they may be revised or combined with other provisions). Added sections are entirely new numbers and headings; these sections do not exist in the current 33 CFR part 5. Removed sections exist in the current 33 CFR part 5 but not in the proposed rule. Provisions that are merely restatements of existing law will be removed from the regulations.

Revised sections exist in the current 33 CFR part 5, but are being changed in the proposed rule. Often some or all of the contents of the section are exported to another section; these are identified as moved.

Tables 1A and 1B describe the proposed distribution and deletion of existing sections and the derivation of proposed new sections.

Table 1A is a distribution table. Table 1A describes what will happen to each section of the current regulations under the proposed rule. For example, the sixth row of Table 1A tells the reader that, in the proposed rule, § 5.05 will be moved to § 5.3(a) and how the text will change.

Table 1B is a derivation table. Table 1B describes where the provisions of the proposed regulations came from. For example, the sixth row of Table 1B tells the reader the language of § 5.10 came from §§ 5.09, 5.13 and 5.15. If, for any section there is no text in the second column, that means the proposed text is new and unrelated to the contents of the existing section. To see where the content of the existing section moved, see Table 1A.

Subpart A—General

§ 5.1—Definitions: We propose to revise this section to update several definitions.

The definition of “Act,” which currently includes only “the Coast Guard Auxiliary and Reserve Act of 1941, as amended and recodified by [the] Act of August 4, 1949” would be deleted and replaced by a new definition, “Auxiliary Act”, which includes the provisions of the U.S. Code dealing most directly with the Auxiliary (14 U.S.C. 821–894), including the legislative changes set out in section III. Background.

The definition of “facility” would be amended to add motorized vehicles, trailers, and other equipment accepted for use by the Coast Guard.

The definition of “radio station” would be amended to clarify that it includes any equipment used for radio communications or direction finding as well as a building or vehicle housing such equipment.

The definition of “Secretary” would be amended to reflect the nature of the
Coast Guard’s service. Most of the time, the Coast Guard is a part of the Department of Homeland Security and the Coast Guard’s Secretary is the Secretary of DHS. In time of war, the Coast Guard may be transferred to the Department of the Navy, and the Coast Guard’s Secretary is the Secretary of the Navy. The proposed language is standard language for Coast Guard regulations in which the term Secretary is defined.

The proposed definitions section would also include a definition of “direct law enforcement.” Direct law enforcement is described in Chapter 4.E. of the Auxiliary Operations Policy Manual, COMDTINST 16798.3E (series), and is used in other Auxiliary publications and section 5.20(b) of the proposed rule.

Finally, we propose to define a new term, “Personal property of the Auxiliary,” to cover motor boats, yachts, aircraft, radio stations, motorized vehicles, trailers, or other equipment owned by the Auxiliary. This administrative jurisdiction of the Auxiliary and used solely for Auxiliary purposes, as provided by section 226 of the Coast Guard and Maritime Transportation Act of 2004 (Pub. L. 108–293, codified at 14 U.S.C. 821(d)(2)).

§ 5.3—Purpose: We propose to clarify the purpose of the Auxiliary to conform to current statutory language. The new language is broader than the existing regulation, in keeping with the current language of 14 U.S.C. 822.

Proposed paragraphs (a) and (b) of this section review basic information about the Auxiliary. Paragraph (c) of this section would specify that Auxiliary units may act as caretakers, docents, or tour guides for Coast Guard and other Federal- or State-owned property, a customary role which many Coast Guard units may not be aware is an authorized mission of the Auxiliary. Paragraph (d) of this section would be a new provision supporting the Commandant’s commitment to strengthening partnerships with other Federal, State and local agencies.

§ 5.5—Organization, officers, and leadership: We propose to revise this section to explain the organization and composition of the Auxiliary. Because of the Auxiliary’s unique nature as a Congressionally-chartered volunteer organization, its units are sometimes not recognized as distinct from the Coast Guard. This explanation would also assist Auxiliary units in their dealings with commercial institutions (e.g. banks and insurance companies).

§ 5.6—Eligibility, specific authorizations: This section would address the Commandant’s ability to delegate authority, and provide examples of specific actions that the Commandant has delegated to the Auxiliary. It would also clarify that the Auxiliary national board and Auxiliary districts or regions may incorporate under State law and pursuant to Coast Guard policy, and establish basic functions of the Auxiliary’s national corporation.

§ 5.9—References: We propose to move the contents of existing § 5.09 to new § 5.10. We propose to add a new section § 5.9 to establish various Coast Guard directives and publications as appropriate references for the Coast Guard and the public. Those directives and publications can be found online at http://www.uscg.mil/auxiliary/publications/comdtinst/.

Subpart B—Membership

This proposed new subpart would contain regulations relating to members and membership eligibility, discipline and compensation.

§ 5.10—Eligibility for membership: We propose to add this section to consolidate and revise existing §§ 5.09, 5.11, 5.13, and 5.15.

Paragraph (a) would identify the basic eligibility criteria for Auxiliary membership and eliminate the minimum age requirement and the 25-percent ownership requirement in § 5.09 of the current regulations. This paragraph also incorporates the 2012 legislative change that authorizes eligibility for Auxiliary membership to include nationals of the United States and aliens lawfully admitted for permanent residence. The minimum age is not set by statute.

Current Auxiliary policy does not require any portion of ownership in any vessel or other equipment as a pre-condition for membership. The 25-percent ownership requirement in the current regulations was founded on an ownership interest in a motorboat, yacht, aircraft, or radio station, or possess special training or experience which qualifies them for duty. Current Auxiliary policy and practice is to consider all prospective members under the “special training or experience” provision, including applicants who are willing to undergo training in order to qualify. Although owners of vessels or other equipment would still be eligible for membership, removing the ownership requirement from the CFR will emphasize the importance of training and experience for prospective auxiliary members and reduce the chance of a prospective member mistakenly believing that not being a vessel owner precludes him or her from membership.

Paragraph (b) incorporates the provisions of the current § 5.15—Admission for membership, without substantive change.

§ 5.11—Honorary members: Provisions of the existing § 5.11, “Membership in military organizations”, would be removed, as they are unnecessarily duplicative of law (14 U.S.C. 825) and policy. We propose to revise this section to incorporate existing § 5.25 “Honorary members.”

§ 5.12—Ranks, titles, designations, or grades: This new section contains language, without substantive change, from existing § 5.21.

§ 5.13—Advancement: Provisions of existing § 5.13 would be moved to § 5.10. Proposed § 5.13 states that the Commandant will prescribe policy on advancement, which will be described in Auxiliary policy manuals. This language was moved with minor edits from §5.23.

§ 5.14—Uniforms and insignia: We propose to add this section to incorporate provisions of existing §§ 5.61 and 5.63.

§ 5.15: We propose to remove and reserve this section. The provisions of existing §5.15 would be consolidated in §5.10.

§ 5.16—Compensation and travel expenses: This section would specify that Auxiliaryists are not authorized to receive compensation for their services, but may be paid actual necessary travel expenses. This section combines existing §§5.55 and 5.57.

§ 5.17—Status of members as Federal employees: Provisions of existing §5.17 would be moved to §5.19. We propose to add new language in this section to clarify that Auxiliaryists are not considered Federal employees, except as provided by 14 U.S.C. 823a.

§ 5.18—Injury or death in the line of duty: We propose to add this section to clarify the compensation an Auxiliaryist is entitled to receive if injured or killed in the performance of duty; codify Coast Guard policy on what is “performance of duty” in the context of Auxiliary activity, describe Auxiliaryists’ access to medical and dental care; and summarize compensation provisions for the beneficiaries of Auxiliarists who are injured or die in the performance of duty.
Paragraph (a) of this section would codify Coast Guard policy and practice relating to the definition of “performance of duty” in the context of Auxiliary activity. The Coast Guard compensates members for injuries sustained in the performance of duty under 14 U.S.C. 707 and 832 and the Federal Employees Compensation Act, 5 U.S.C. 8101 et seq. Existing Coast Guard policy extends this coverage to include travel to and from the Auxiliarists’ permanent residence to a place of duty (see paragraph 7.0.2.c. of the Coast Guard Administrative Investigation Manual COMDTINST M5830.1). This proposed rule would codify the Coast Guard’s practice of including stops en route and incidental to duty, and travel between duty locations, as “performance of duty.”

Paragraphs (b) and (c) of this section would specify Auxiliarists’ entitlement to hospitalization, medical care, and compensation for injury or death in the performance of duty. Paragraphs (b) and (c) of this section were imported from existing §5.59. These entitlements are taken from three different statutory provisions:

- 14 U.S.C. 832 provides that Auxiliarists are entitled to hospitalization and medical care as if they were members of the Temporary Reserve.
- 14 U.S.C. 707 provides that temporary members of the reserve who are injured or die while performing active duty will be compensated as if they were civilian employees with basic pay equivalent to grade GS-9.
- The note to 5 U.S.C. 8133 provides additional compensation eligibility for civilian employees killed in the performance of duty.

§5.19—Disenrollment: The provisions of existing §5.19 would be incorporated into new §5.28. We propose to revise this section to incorporate provisions from existing §5.17 without substantive change.

Subpart C—Activities, Operations and Training

§5.20—Authority: We propose to add this section to clarify the limits on Auxiliarists’ authority in the performance of their duties. Paragraph (a) would incorporate the provisions of existing §5.31. Paragraph (b) would state the prohibition on Auxiliarists engaging in direct law enforcement or military operations. Paragraph (c) would clarify that Auxiliarists’ authority in supporting enforcement of limited access areas, regulated navigation areas, and special local regulations is limited to advising the public of such restrictions.

§5.21: We propose to move this section to §5.12.

§5.22—Assignment to duties: We propose to consolidate the provisions of existing §§5.27 and 5.29 regarding assignment to duty in this section.

§5.23: We propose to remove this section, as its provisions would be consolidated in new §5.13.

§5.24—Procedure for assignment to duty: We propose to add this section to include information about procedures for assignment to duty of Auxiliarists and their facilities.

§5.25: We propose to remove this section, as its provisions would be consolidated in new §5.11.

§5.27: We propose to remove this section, as its provisions would be consolidated in new §5.22.

§5.26—Training, examination, and assignment: We propose to consolidate existing §§5.19 and 5.33 into this new section to explain that the Commandant will set the training, qualification and examination requirements for Auxiliarists who may authorize Auxiliarists to take correspondence and distance-learning courses from Coast Guard providers.

§5.29: We propose to consolidate this section into new §5.22.

Subpart D—Facilities and Equipment

Subpart D would contain the regulations dealing with vessels, aircraft, radio stations, motor vehicles, or other equipment used by the Auxiliary, the treatment of such facilities as United States property, and the procedures for transferring administrative jurisdiction of such property to and from the Auxiliary.

§5.30—Facilities and other equipment: We propose to add this section to codify Coast Guard policy regarding duty status, liability protection, and status as a public vessel of facilities and other equipment used by the Auxiliary, and to revise provisions for reimbursement of facility operating expenses.

Paragraph (b)(1) “Duty status” would clarify that personal property of the Auxiliary (typically unit-owned property) is considered assigned to authorized Coast Guard duty at all times. This is consistent with Coast Guard policy, established by paragraph D.2. of ALCOAST 600/05, “Changes to Auxiliary Administrative Policies.”

Paragraph (b)(2) would clarify the scope of liability protection for personal property of the Auxiliary. The Commandant has directed that personal property of the Auxiliary be treated as property of the United States for the purposes of the Federal Tort Claims Act, the Military Claims Act, the Public Vessels Act, the Suits in Admiralty Act, the Admiralty Extension Act, and other matters related to non-contractual civil liability, in accordance with provisions of 14 U.S.C. 821(d)(2), as amended by the Coast Guard and Maritime Transportation Act of 2004 (Pub. L. 108–293).

Paragraph (b)(3), “Public vessels,” will clarify that facilities loaned or given to the Auxiliary by the Coast Guard or other Federal agencies retain their public status.

Paragraph (c), “Expenses,” codifies Coast Guard policy for reimbursement of expenses incurred by Auxiliarists for the use, operation, maintenance, damage, or loss of their facilities.

§5.31: We propose to consolidate this section into new §5.20.

§5.32—Offer of member-owned vessels, aircraft, radio stations, motorized vehicles, trailers, and other equipment for use as a facility: We propose to add this section to update the terms of existing §5.32. This proposed section would apply when Auxiliary members want to offer member-owned vessels, aircraft, radio stations, motorized vehicles, trailers, and other equipment for use as a facility. Specific procedures for these offers are in the Auxiliary Policy Manual.

§5.34—Offers of personal property of the Auxiliary as a facility: We propose to add this section to describe Coast Guard policy for personal property of the Auxiliary to be accepted as a facility. This proposed section would apply when an Auxiliary unit has ownership or administrative jurisdiction over a vessel, aircraft, radio station, motorized vehicle, trailer, or other equipment and wants to offer it for use as a facility. Specific procedures for these offers are in the Auxiliary Policy Manual.

§5.35: We propose to remove this section as its provisions would be consolidated in new §5.32.

§5.36—Loan of vessels, aircraft, radio stations, motorized vehicles, trailers, or other equipment to the Coast Guard: This section would apply when a person wants to loan a vessel, aircraft, radio station, motorized vehicle, trailer, or other equipment to the Coast Guard for Coast Guard use. This section would consolidate and update provisions of existing §§5.35, 5.37, 5.39, 5.41, and 5.45 and would add motorized vehicles, trailers, and other equipment owned by members or Auxiliary units to the list of property which may be loaned to the Coast Guard. In addition, this section...
would specify procedures for the return of facilities at the expiration of the loan period, clarify that facilities will not be considered loaned until accepted by a person authorized by the Commandant, and provide for waiver of loan procedures in an emergency.

§ 5.39—Acceptance of facilities: We propose to remove this section.

Provisions of the existing § 5.39 would be consolidated in new § 5.30.

Subpart E—Auxiliary Markings

This new subpart will describe the distinctive marks, decals and ensigns (flags) the public is likely to see on Auxiliary facilities. Sections of the current 33 CFR part 5 will be moved into this subpart. The proposed regulations would not change the design or display of any marks, decals, or ensigns. Marks which were previously described only in the Auxiliary Manual COMDTINST M16790.1 (series) or the Coast Guard Heraldry Manual COMDTINST M5200.18A would be described here, which would help the public more easily identify Auxiliary facilities.

Auxiliary markings distinguish Auxiliary boats, aircraft, and other equipment. Ensigns are flags flown by or at an asset (e.g., flown on a flag staff at a building) to signify that the asset is associated with the Auxiliary or Coast Guard. Decals are markings adhesively applied to the asset to denote its status as an Auxiliary facility that has been accepted for use by the Coast Guard. Patrol signs are placards, normally removable and of a proportionate size for the vessel on which they are displayed, which indicate to nearby vessels that the vessel is engaged in Auxiliary activities. The Auxiliary mark is a permanent marking signifying that the asset belongs to the Auxiliary in terms of custody, ownership, or as personal property.

§ 5.40—Distinctive markings for vessels, aircraft, motorized vehicles, trailers, radio stations, and other equipment: This section incorporates provisions of the current §§ 5.47 and 5.48. We propose to add this section on facility markings to clarify for both Auxiliarians and the public the identification of Auxiliary vessels, aircraft, motorized vehicles, trailers, radio stations, and other equipment, and advise the public of the penalties for unauthorized display of Auxiliary markings.

§ 5.41—Auxiliary emblem: We propose to revise this section. Provisions of the existing § 5.41 would be distributed between § 5.44(c), § 5.45, and § 5.46. The proposed section would incorporate provisions of existing § 5.47(c) describing the Auxiliary emblem and explain the use of the emblem as identification.

§ 5.42—Auxiliary ensign: The provisions of this proposed new section would be imported from existing § 5.47 and would describe the Auxiliary ensign and its display.

§ 5.43—Auxiliary mark: We propose to revise this section. Provisions of the existing § 5.43 would be moved to § 5.30(b)(3) or removed. The proposed revised section would describe the Auxiliary mark and its display.

§ 5.44—Auxiliary facility decal: We propose to add this section to describe the Auxiliary facility decal and its display.

§ 5.45—Patrol signs: We propose to revise this section. Provisions of the current section would move to § 5.36(a). The revised section would describe the correct display of the Coast Guard ensign and cross-reference to the official description of the Coast Guard ensign at 33 CFR 23.15.

§ 5.46—Auxiliary patrol boat ensign: This proposed new section would describe the Auxiliary patrol boat ensign and its display. These provisions would be imported from the current § 5.48.

§ 5.47—Coast Guard ensign: We propose to revise this section. Provisions of the existing § 5.47 would be moved to § 5.46. The revised section would describe the correct display of the Coast Guard ensign and cross-reference to the official description of the Coast Guard ensign at 33 CFR 23.15.

§ 5.48—Auxiliary patrol boat ensign: We propose to revise this section. Provisions of the existing § 5.48 would be moved to § 5.46. The revised section would describe the markings that may be displayed on Auxiliary aircraft.

§ 5.49—Reimbursement for expenses: We propose to remove this section; its provisions would be moved to § 5.30(c).

§ 5.50: We propose to remove this section; its provisions would be consolidated in § 5.16.

§ 5.51: We propose to remove this section; its provisions would be consolidated in § 5.16.

§ 5.52: We propose to remove this section because its provisions would be consolidated in § 5.18.

§ 5.61: We propose to remove this section because its provisions would be consolidated in § 5.14.

§ 5.63: We propose to remove this section because its provisions would be consolidated in § 5.14.

§ 5.65: We propose to remove this section because its provisions (dealing with the eligibility of Auxiliary members for Coast Guard medals and awards) are more appropriately covered in the Auxiliary policy reference, the Coast Guard Auxiliary Manual [COMDTINST M16790.1 (series)].

§ 5.69: We propose to remove this section because it restates, verbatim, language contained in 14 U.S.C. 893.

V. Regulatory Analysis

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 14 of these statutes or executive orders.

A. Regulatory Planning and Review

Executive Orders 12866 (“Regulatory Planning and Review”) and 13563 (“Improving Regulation and Regulatory Review”) direct agencies to assess the costs and benefits of their regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The Coast Guard has determined that this NPRM is not a “significant regulatory action” under section 3(f) of Executive Order 12866. Accordingly, the NPRM has not been reviewed by the Office of Management and Budget. A draft regulatory assessment follows.

The proposed rule would conform regulatory language to statutes, codify many existing practices, clarify procedures, increase procedural flexibility for Coast Guard and Auxiliarians, increase overall efficiency in the process, and re-organize content to improve clarity. There are no costs to either the federal government or the private sector associated with these proposed changes. This notice of proposed rulemaking applies to members and prospective members of the Coast Guard Auxiliary and people and companies that interact with the Auxiliary. The Auxiliary is a Congressionally-chartered component of the Coast Guard made up of civilian volunteers. Auxiliary units (“flotillas”) are neither corporations nor charities and often encounter administrative trouble with banks, insurance companies, and businesses. This rulemaking would clarify for the public the nature, organization, and purpose of the Auxiliary, and conform the regulatory language to the Auxiliary statutes, as amended by legislative
changes. Many of these changes are already reflected in Coast Guard policies and manuals. For example, the financial aspects of these regulations, such as reimbursement of expenses, including the Standard Auxiliary Maintenance Allowance (SAMA), incorporate already existing practices and authorities, as detailed in Auxiliary Manual COMDTINST M16790.1 (series), chapter 9 and Auxiliary Operations Policy Manual COMDTINST M16798.3 (series), chapter 3 and section B–2. These proposed changes would update our regulations to capture our current practices regarding reimbursement of Auxiliary facility expenses and maintenance costs. The reimbursement of expenses, including gratuity payments.

The primary benefit of this proposed rule would be to conform regulatory language to the legislative changes described in section III, Background. This would result in increased efficiencies in Auxiliary interactions with the Coast Guard and with the public, including Auxiliaryists’ interaction with banks and insurance agents. Banks help provide reimbursement (via direct deposit) for operations and other missions requiring Auxiliaryists to incur an initial expense from their personal funds. Insurance agents’ relationships are also important, as Auxiliaryists may be reimbursed for damages to their vessels when those vessels are engaged in waterborne or airborne operational patrols.

We have classified the proposed changes into categories, as listed in Table 2. There are no costs associated with the changes.

B. Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule imposes no direct costs; consequently, there are no impacts on small entities to consider.

Therefore, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

C. Assistance for Small Entities

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment to the Docket Management Facility at the address under ADDRESSES. In your comment, explain why you think your business or organization qualifies, how and to what degree this rule would economically affect it.

D. Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

E. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under E.O. 13132 and have determined that it does not have implications for federalism under that Order.

F. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

G. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

H. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

I. Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that may disproportionately affect children.

J. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

K. Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant regulatory action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.
L. Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed and adopted by voluntary consensus standards bodies. This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

M. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under the “Public Participation and Request for Comments” section of this preamble. This proposed rule involves the operation and administration of the Coast Guard Auxiliary and falls under section 2.B.2, figure 2–1, paragraphs (34)(a), (b), (c), and (d) of the Instruction. These paragraphs exempt regulations which are editorial or procedural, concern internal agency functions or organization, concern the training and qualifying of maritime personnel, and concern the inspection of vessels, respectively. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

List of subjects in 33 CFR Part 5

Volunteers.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 5 as follows:

Title 33—Navigation and Navigable Waters

PART 5—COAST GUARD AUXILIARY

§ 5.1 Definitions.

(a) The Auxiliary is a uniformed, volunteer, non-military organization administered by the Commandant under the direction of the Secretary.

(b) The purpose of the Auxiliary is to assist the Coast Guard, as authorized by the Commandant, in performing any Coast Guard function, power, duty, role, mission, or operation authorized by law.
(c) Auxiliary units may assist the Coast Guard in maintenance and upkeep, and in conducting tours of Coast Guard and other Federal- or State-owned structures and property.

(d) The Auxiliary may assist Federal, State, and municipal agencies, as authorized by the Commandant.

§ 5.5 Organization, officers, and leadership.

(a) The Coast Guard Auxiliary is organized pursuant to the Auxiliary Act and Coast Guard regulations. Organizational elements include a national board and staff, national leadership, areas, districts, regions, divisions, and flotillas. A flotilla is the basic organizational unit of the Auxiliary.

(b) The Auxiliary has elected and appointed officers.

(1) Elected officers are in charge of Auxiliary units and elements at both the national and local levels of the Auxiliary organization. The Unit Leader is the senior elected officer at each level of the Auxiliary organization: Flotilla Commanders, Division Commanders, District Commodores, and the National Commodore are unit leaders.

(2) Appointed officers are appointed by elected officers and hold staff positions in Auxiliary units at both the national and local levels of the Auxiliary organization.

(c) For all Auxiliary units, the Unit Leader is the person authorized to exercise the authority set forth in § 5.07 of this part on behalf of his or her unit, and may delegate that authority.

(d) For all Auxiliary units, the Finance Officer is the person authorized to handle, transfer and disburse bank accounts, monies, stocks, bonds, and other items of tangible personal property on behalf of his or her Auxiliary Unit.

§ 5.7 Administration, specific authorizations.
