A copy of the comments may also be submitted to the FDIC Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For further information about this information collection, please contact Leneta G. Gregorie, by telephone at (202) 898-3719 or by mail at the address identified above.

SUPPLEMENTARY INFORMATION: The FDIC is requesting OMB approval to renew the following information collection:

Title: Occasional Qualitative Surveys.
OMB Number: 3064-0127.

Estimated number of surveys per year: 15.

Estimated response time per survey: 1 hour.

Estimated number of respondents per survey: 850 hours.

Total Annual Burden: 12,500 hours.

General Description of Collection: The information collected in these surveys is anecdotal in nature, that is, samples are not necessarily random, the results are not necessarily representative of a larger class of potential respondents, and the goal is not to produce a statistically valid and reliable database. Rather, the surveys are expected to yield anecdotal information about the particular experiences and opinions of members of the public, primarily staff at respondent banks or bank customers. The information is used to improve the way FDIC relates to its clients, to develop agendas for regulatory or statutory change, and in some cases to simply learn how particular policies or programs are working, or are perceived in particular cases.

Request for Comment

Comments are invited on: (a) Whether these collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimate of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.

Dated at Washington, DC, this 6th day of May, 2013.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the OMB control number 0990-0308 and document identifier HHS-OS-18280-30D.

Information Collection Request Title: The Effect of Reducing Falls on Acute and Long-Term Care Expenses.

OMB No.: 0990-0308.

Abstract: ASPE is conducting a demonstration and evaluation of a

multi-factorial fall prevention program to measure its impact on health outcomes for the elderly as well as acute and long-term care use and cost. The study is being conducted among a sample of individuals with private long-term care insurance who are age 75 and over using a multi-tiered random experimental research design to evaluate the effectiveness of the proposed fall prevention intervention program. The project began in Spring 2008 and is expected to be completed in December 2014.

Need and Proposed Use of the Information: The project will provide information to advance Departmental goals of reducing injury and improving the use of preventive services to positively impact Medicare use and spending.

Likely Respondents: Adults age 75 or older.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to

develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Proposed Project

Million Hearts® Hypertension Control Challenge—New—National Center for

Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC proposes to launch the Million Hearts® Hypertension Control Challenge to identify clinical practices and health systems that have been successful in achieving high rates of hypertension control and to develop models for dissemination. The most successful clinical practices or health plans will be recognized as Million Hearts® Hypertension Control Champions.

CDC requests OMB approval to collect the information needed to identify, qualify, and rank applicants for recognition through the Million Hearts® Hypertension Control Challenge. Interested providers or clinical programs voluntarily self-nominate their practice or healthcare system by completing a web-based nomination form located on the Challenge.gov web portal. The nomination process will include submission of the minimum amount of data needed to provide evidence of clinical success in achieving hypertension control, including: (a) Two point-in-time measures of the clinical hypertension control rate for the patient population, (b) the size of the clinic population served, and (c) a description

of the sustainable systems adopted to achieve hypertension control rates.

CDC scientists or contractors will assign a preliminary score to each submitted nomination form. Those with the highest preliminary scores will be further reviewed by a CDC-sponsored panel of three to five experts in hypertension control. The panel will provide CDC with a ranked list of nominees.

Finalists will be asked to participate in a data verification process that includes verification of how information was obtained from electronic records, remote electronic record or chart review, on-site review, or verification with other sources. Finalists may be eliminated based on the results of data verification.

Each remaining finalist, or Champion, will be asked to participate in a semi-structured interview. The interview will provide detailed information about the strategies employed by the practice or health system to achieve exemplary rates of hypertension control, including barriers and facilitators for those strategies.

OMB approval is requested for three years to support three annual Challenges.

There are no costs to respondents other than their time. The total estimated burden hours are 958.
