Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Reporting

Requirements for Grants to Support States in Health Insurance Rate Review and Pricing Transparency—Cycles I, II, and III; *Use:* Under the Section 1003 of the Affordable Care Act (ACA) (Section 2794 of the Public Health Service Act), the Secretary, in conjunction with the states and territories, is required to establish a process for the annual review, beginning with the 2010 plan year, of unreasonable increases in premiums for health insurance coverage. Section 2794(c) requires the Secretary to establish the Rate Review Grant Program to assist states to implement this provision. In addition, Section 2794(c) requires the Rate Review Grant Program to assist states in the establishment and enhancement of “Data Centers” that collect, analyze, and disseminate health care pricing data to the public.

The U.S. Department of Health and Human Services (HHS) released the Rate Review Grants Cycle I funding opportunity twice; first to states (and the District of Columbia) in June 2010 and then to the territories and the five states that did not apply during the first release, (http://www.hhs.gov/ociio/initiative/final_premium_review_grant_solicitation.pdf). The second release was due to the decision that the territories were subject to provisions of the ACA and hence eligible for the Rate Review Grants. Forty-five (45) states and 5 U.S. territories plus the District of Columbia were awarded grants.

On February 24, 2011, HHS released the Funding Opportunity Award (FOA) for Cycle II Rate Review Grants. On December 21, 2012, Cycle II of the Rate Review Grant Program was amended in order to include an additional application date. Thirty (30) states, the District of Columbia, and three territories were awarded grants in Cycle II.

The CMS is seeking to publish the Cycle III Funding Opportunity Announcement, “Grants to Support States in Health Insurance Rate Review and Pricing Transparency”, and associated grantee reporting requirements consisting of: (4) quarterly reports, (5) rate review transaction data reports (quarterly and annual), (1) Annual report, and (1) final report from all grantees. This information collection is required for effective monitoring of grantees and to fulfill statutory requirements under section 2794(b)(1)(A) of the ACA that requires grantees, as a condition of receiving a grant authorized under section 2794(c) of the ACA, to report to the Secretary information about premium increases. *Form Number:* CMS–10380 (OCN: 0938–1121); *Frequency:* Annually, on

occasion; *Affected Public:* Public Sector—State and Territory Governments; *Number of Respondents:* 56; *Total Annual Responses:* 1,001; *Total Annual Hours:* 31,378. (For policy questions regarding this collection contact Sarah Norman at 301–492–4185. For all other issues call 410–786–1326.)

Title: DHHS/ACF/OPRE Head Start Classroom-based Approaches and Resources for Emotion and Social skill promotion (CARES) project: Tracking Participants.

Description: The Head Start Classroom-based Approaches and

Resources for Emotion and Social skill promotion (CARES) project is an evaluation of three social emotional program enhancements within Head Start settings serving three- and four-year-old children. This project focuses on identifying the central features of effective programs to provide the information federal policy makers and Head Start providers will need if they are to increase Head Start's capacity to improve the social and emotional skills and school readiness of preschool age children. The Head Start CARES project

completed data collection for cohort (1) 4-year-olds and cohort (2) 3-year-olds in spring of 2011, and for cohort (2) 4-year-olds in the spring of 2013.

ACF is proposing to collect information necessary to identify Head Start CARES study respondents' current location and follow-up with respondents until the children reach third grade. In support of the examination of fourth grade outcomes, information must be collected from parents or guardians until the third grade year. Therefore, in the summer of 2013 and spring of 2014 tracking of all

children will be necessary, in the spring of 2015 for the three- and four-year-olds in Cohort 2 only, and in the spring of 2016 the three-year-olds in Cohort 2 only. In addition to location and contact information, a small set of additional items will provide information on the parents' perception of the children's social and emotional skills and behavioral outcomes.

Respondents: Low-income parents and their Head Start children. This is a three-year information collection request.
