

continuing collections of information. This helps the EEOC assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the EEOC's information collection requirements and provide the requested data in the desired format. The EEOC is soliciting comments on the proposed information collection request that is described below. The EEOC is especially interested in public comment that will assist the EEOC in the following: (1) Evaluating whether the proposed collection of information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility; (2) Evaluating the accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhancing the quality, utility, and clarity of the information to be collected; and (4) Minimizing the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Please note that written comments received in response to this notice will be considered public records.

#### **Overview of This Information Collection**

**Collection Title:** Informational requirements under Title II of the Older Workers Benefit Protection Act of 1990 (OWBPA), 29 CFR 1625.22.

**OMB Number:** 3046–0042.

**Type of Respondent:** Business, State or local governments, not for profit institutions.

**Description of Affected Public:** Any employer with 20 or more employees that seeks waiver agreements in connection with an exit incentive or other employment termination program.

**Number of Responses:** 17,080.

**Reporting Hours:** 25,620.

**Number of Forms:** None.

**Burden Statement:** The only paperwork burden involved is the inclusion of the relevant data in requests for waiver agreements under the OWBPA.

**Abstract:** The EEOC enforces the Age Discrimination in Employment Act (ADEA) which prohibits discrimination against employees and applicants for employment who are age 40 or older. The OWBPA, enacted in 1990, amended the ADEA to require employers to

disclose certain information to employees (but not to EEOC) in writing when they ask employees to waive their rights under the ADEA in connection with an exit incentive program or other employment termination program. The regulation at 29 CFR 1625.22 reiterates those disclosure requirements. The EEOC seeks an extension without change for the third-party disclosure requirements contained in this regulation.

licensees or permittees with sixteen (16) or more full-time employees are required to file its Annual Employment Report. Each common carrier is also obligated to file copies of all exhibits, letters and other documents pertaining to all equal employment opportunity statements and annual reports on complaints regarding violations of equal employment provisions of Federal, State, Territorial, or local law filed with this Commission. The common carriers are required to retain these documents for a period of two years. The Annual Employment Report identifies each filer's staff by gender, race, color and/or national origin in each of ten major job categories. Section 42.5 requires that records kept in a machine-readable medium be accompanied by a statement indicating the type of data included in the record and certifying that the information contained in it has been accurately duplicated.

Section 42.6 requires a carrier to retain telephone toll records for 18 months that are necessary to provide the following billing information about telephone toll calls: the name, address, and telephone number of the caller, telephone number called, date, time and length of call.

Section 42.7 allows a carrier to establish its own retention periods for all of its records, except records of telephone toll calls and records relevant to complaint proceedings.

Documentation of premature records destruction is necessary so that the Commission can be aware of the frequency and consequences of such destruction. If carriers were allowed to destroy records at will, the Commission would lose historical information, thus making it impossible to regulate the industry properly. A specific retention period for telephone toll records of 18 months is imposed to assist Department of Justice in law enforcement.

Any interested party seeking preemption of a state commission's jurisdiction based on the state commission's failure to act shall notify the Commission as follows: (1) File with the Secretary of the Commission a detailed petition, supported by an affidavit, that states with specificity the basis for any claim that it has failed to act; and (2) serve the state commission and other parties to the proceeding on the same day that the party serves the petition on the Commission. Within 15 days of filing the petition, the state commission and parties to the proceeding may file a response to the petition. Pursuant to the E-rate program (formerly known as the schools and

libraries universal support program), eligible schools, libraries, and their consortia may apply for discounts for telecommunications services, Internet access, and internal connections. In general, the applicant must use the funded services within the funding year, which runs from July 1 through June 30, except that the rules of the FCC, hereinafter the "Commission", give applicants three additional months, until September 30 following the close of the funding year, to install one-time services known as non-recurring services. The Universal Service Administrative Company (USAC) may extend the September 30 deadline if the applicant falls within at least one of four designated circumstances. The applicant must, however, submit any required documentation to support an extension on or before the September 30 deadline. These extensions ensure that schools and libraries are not penalized when they are not responsible for missing the installation deadline. Additionally, implementation of this policy provides clarity to the USAC and

applicants by establishing a certain deadline for installation. This rule also gives schools and libraries in the program the opportunity to schedule implementation of non-recurring services over the summer months.
