SUPPLEMENTARY INFORMATION:

Background

Due to several recent fatal motorcoach crashes, the Congress, the Department of Transportation (DOT), specifically the Federal Motor Carrier Safety Administration (FMCSA), and other Federal oversight agencies, including NTSB, have increased their scrutiny over the motorcoach industry and the enforcement and compliance of the Federal Motor Carrier Safety Regulations (FMCSRs). On February 26, 1999, NTSB issued safety recommendation H–99–8 to DOT, requiring motorcoach operators to provide passengers with pre-trip safety awareness information. This recommendation resulted from NTSB’s investigation of two motorcoach crashes from the late 1990s which revealed that passengers felt a general sense of panic not knowing what to do if a motorcoach in the case of an emergency. The intent of the recommendation is to empower passengers to take their personal safety into their own hands in the event of an imminent hazardous or emergency situation. The FMCSA decided to implement the recommendation through voluntary adoption and compliance of pre-trip safety briefings in the motorcoach industry.

The goals and objectives of this survey are to assess the current levels of voluntary compliance by motorcoach operators and to obtain passenger opinions of the implementation of the pre-trip safety awareness and emergency preparedness information. The Form MCSA–5868 will be used to survey motorcoach passengers. This information, along with its conclusions, will be used to inform future initiatives, policies, and rules as appropriate; will be presented to NTSB and Congress; and will contribute to the general literature regarding practices for improving motorcoach safety in the United States.
