SUPPLEMENTARY INFORMATION:

I. Background

This guidance supersedes two previous guidance documents: “Medical Device Appeals and Complaints: Guidance for Dispute Resolution,” dated February 1998 and “Resolving Scientific Disputes Concerning the Regulation of Medical Devices, A Guide to Use of the Medical Devices Dispute Resolution Panel; Final Guidance for Industry and FDA,” dated July 2001. In the Federal Register of December 28, 2011 (76 FR 81511), FDA announced the availability of the draft of this guidance. Interested persons were invited to comment by April 26, 2012. In July 2012, section 517A of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360g–1) was added by section 603 of the FDA Safety and Innovation Act (FDASIA) (Pub. L. 112–114). FDA considered the public comments received and revised the guidance, as appropriate, and in accordance with the new requirements established by section 603 of FDASIA.

Section 517A includes new requirements pertaining to the process and timelines for appeals, made under 21 CFR 10.75 (10.75 appeal) of “significant decisions” regarding 510(k) premarket notifications, applications for premarket approval (PMA), and applications for investigational device exemptions (IDEs). In this guidance document, the term “significant decision” refers to significant decisions pertaining to these submissions. In this issue of the Federal Register, FDA is announcing the Agency’s proposed interpretation of this provision (for example, what constitutes a “significant decision”) in a draft guidance document entitled “Center for Devices and Radiological Health Appeals Processes: Questions and Answers About 517A.”

II. Significance of Guidance

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the Agency’s current thinking on CDRH’s Appeals Processes. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.

III. Electronic Access

Persons interested in obtaining a copy of the guidance may do so by using the Internet. A search capability for all CDRH guidance documents is available at http://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/default.htm. Guidance documents are also available at http://www.regulations.gov. To receive “Center for Devices and Radiological Health Appeals Processes” you may either send an email request to dsmica@fda.hhs.gov to receive an electronic copy of the document or send a fax request to 301–847–8149 to receive a hard copy. Please use the document number 1742 to identify the guidance you are requesting.

IV. Paperwork Reduction Act of 1995

This guidance contains information collection provisions that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The collections of information in the guidance document “Center for Devices and Radiological Health Appeals Processes” are approved under OMB control number 0910–0738. The guidance also refers to currently approved information collections found in FDA regulations. The collections of information in 21 CFR 10.30, 21 CFR 10.33, and 21 CFR 10.35 are approved under OMB control number 0910–0183; the collections of information in 21 CFR part 12 are approved under OMB control number 0910–0184; and the collections of information under 21 CFR part 900 are approved under OMB control number 0910–0309.

The contact person will notify interested persons regarding their request to speak by June 25, 2013.

Persons attending FDA’s advisory committee meetings are advised that the Agency is not responsible for providing access to electrical outlets.
