SUPPLEMENTARY INFORMATION:

Title: USDOT Survey on Projects of National and Regional Significance (PNRS)

Background: US Department of Transportation (USDOT) is directed by Section 1120(1) of Moving Ahead for Progress in the 21st Century (MAP21), to prepare a report to Congress not later than 2 years after the date of enactment of the MAP–21. The USDOT is required to submit the report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate regarding PNRS. The purpose of the report is to identify projects of national and regional significance that: (a) Will significantly improve the performance of the Federal-aid highway system, nationally, (b) are able to generate national economic benefits that reasonably exceed the costs of the projects, including increased access to jobs, labor, and other critical economic inputs; (c) reduce long-term congestion, including impacts in the State, region, and the United States, and increase speed, reliability, and accessibility of the movement of people or freight; (d) improve transportation safety, including reducing transportation accidents, and serious injuries and fatalities; and (e) can be supported by an acceptable degree of non-Federal financial commitments.

The report is required to contain a comprehensive list of each project of national and regional significance that: (a) has been complied through a survey of State departments of transportation; and has been classified by the Secretary as a project of regional or national significance.

Respondents: The target groups of respondents are State Departments of Transportation, transit agencies, tribal governments and multi-state or multi-jurisdictional groups. The target groups identified in the legislation are “State departments of transportation”; the Federal Highway Administration (FHWA) has interpreted the legislation to mean compile a list of projects from

all eligible applicants not just the State Departments of Transportation, thus in addition to State Departments of Transportation, FHWA will survey other eligible applicants which include tribal governments or consortium of tribal Governments, transit agencies and multi-State or multi-jurisdictional groups.

Estimate

State Departments of Transportation = 52

Transit Agencies = 50

Tribal Governments = 10

Multi-state or multi-jurisdictional groups = 10

Frequency: Every 2 years.

Estimated Average Burden per Response:

40 hours/State Department of Transportation = 2080 hours

20 hours/Transit Agency = 1000 hours

10 hours/Tribal Government = 100

20 hours/Multi-state or multi-jurisdictional groups = 200

Total burden hours = 3380.

Estimated Total Annual Burden: 3380 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: May 14, 2013.

Michael Howell,

Information Collection Coordinator.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2013-0024]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 8 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs). They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. The Agency has concluded that granting these exemptions will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these CMV drivers.

DATES: The exemptions are effective May 20, 2013. The exemptions expire on May 20, 2015.

FOR FURTHER INFORMATION CONTACT: Elaine M. Papp, Chief, Medical Programs Division, (202) 366-4001, fmcamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m. Monday through Friday, except Federal holidays.

Privacy Act: Anyone may search the electronic form of all comments

received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's Privacy Act Statement for the Federal Docket Management System (FDMS) published in the **Federal Register** on January 17, 2008 (73 FR 3316).

Background

On March 19, 2013, FMCSA published a notice of receipt of exemption applications from certain individuals, and requested comments from the public (78 FR 16912). That notice listed 8 applicants' case histories. The 8 individuals applied for exemptions from the vision requirement in 49 CFR 391.41(b)(10), for drivers who operate CMVs in interstate commerce.

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the 2-year period.

Accordingly, FMCSA has evaluated the 8 applications on their merits and made a determination to grant exemptions to each of them.

Vision and Driving Experience of the Applicants

The vision requirement in the FMCSRs provides:

A person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye and the ability to recognize the colors of traffic signals and devices showing requirement red, green, and amber (49 CFR 391.41(b)(10)).

FMCSA recognizes that some drivers do not meet the vision requirement but have adapted their driving to accommodate their vision limitation and demonstrated their ability to drive safely. The 8 exemption applicants listed in this notice are in this category. They are unable to meet the vision requirement in one eye for various reasons, including enucleation, histoplasmosis, amblyopia, and refractive amblyopia. In most cases, their eye conditions were not recently developed. Six of the applicants were either born with their vision
