accounts “as determined in regulations of the Secretary [of Labor]” will not be treated as fiduciaries of the plan. Moreover, no other plan fiduciary will be liable for any loss, or by reason of any breach, resulting from the participants’ or beneficiaries exercise of control over their individual account assets.

The Pension Protection Act (PPA), Public Law 109–280, amended ERISA section 404(c) by adding subparagraph (c)(5)(A). The new subparagraph says that a participant in an individual account plan who fails to make investment elections regarding his or her account assets will nevertheless be treated as having exercised control over those assets so long as the plan provides appropriate notice (as specified) and invests the assets “in accordance with regulations prescribed by the Secretary [of Labor].” Section 404(c)(5)(A) further requires the Department of Labor (Department) to issue corresponding final regulations within six months after enactment of the PPA. The PPA was signed into law on August 17, 2006.

The Department of Labor issued a final regulation under ERISA section 404(c)(5)(A) offering guidance on the types of investment vehicles that plans may choose as their “qualified default investment alternative” (QDIA). The regulation also outlines two information collections. First, it implements the statutory requirement that plans provide annual notices to participants and beneficiaries whose account assets could be invested in a QDIA. Second, the regulation requires plans to pass certain pertinent materials they receive relating to a QDIA to those participants and beneficiaries with assets invested in the QDIA as well to provide certain information on request. The ICRs are approved under OMB Control Number 1210–0132, which is scheduled to expire on December 31, 2013.

II. Focus of Comments
The Department is particularly interested in comments that:

• Evaluate whether the collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the agency’s estimate of the collections of information, including the validity of the methodology and assumptions used;
• Enhance the quality, utility, and clarity of the information to be collected; and
• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., by permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or included in the ICRs for OMB approval of the extension of the information collection; they will also become a matter of public record.
