Description of Measurement Facilities

The Commission established uniform technical standards for various non-licensed equipment operating under the guidelines established in 47 CFR parts 2, 15 and 18 of the FCC rules, which include personal computers, garage door openers, baby monitors, etc. In order to ensure that technical standards are applied uniformly to non-licensed equipment, the Commission requires manufacturers to follow the standardized measurement procedures and practices:

(a) 47 CFR part 2 of the Commission's rules requires each Electro-Magnetic Compatibility (EMC) testing facility that performs equipment testing in support of any request for equipment authorization to file a test site description with the Commission. The Commission also permits a testing facility to be accredited by Commission-approved accrediting bodies. A testing laboratory that is accredited by a Commission-approved accrediting body

is not required to file a test site description with the Commission since the accreditation body will review this information as part of the accreditation assessment.

(b) The test site description and the supporting information documents that the EMC testing facility complies with the testing standards used to make the measurements that support any request for equipment authorization.

The Commission or a Telecommunications certification body uses the information from these test sites and the supporting documentation, which accompany all requests for equipment authorization:

(a) To ensure that the data are valid and that proper testing procedures are used;

(b) To ensure that potential interference to radio communications is controlled; and

(c) To investigate complaints of harmful interference or to verify the manufacturer's compliance with Section 47 CFR 2.948 of the Commission's rules.

Accreditation Bodies

On September 14, 2009, the Office of Engineering and Technology (OET) identified and requested comment on certain types of information that an applicant should provide to be considered as an accreditation body of test laboratories under the Commission's rules, *see* DA 09-2049. 47 CFR 2.948(d) of the Commission's rules sets forth the requirements for accreditation bodies seeking recognition from the FCC as a laboratory accreditation body. Accreditation bodies seeking such recognition from the Commission must file a report of their qualifications with the Office of Engineering and Technology (OET). They are only required to file this information once. The Commission currently has three recognized accreditation bodies.

Other Information

In addition, the referenced 47 CFR part 15 rules (47 CFR 15.117(g)(2)) require that certain equipment manufacturers file information concerning the testing of TV receivers, which tune to UHF channels, to show that the UHF channels provide approximately the same degree of tuning accuracy with approximately the same expenditure of time and effort.

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

FEDERAL RESERVE SYSTEM

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Information Collection Activities: Submission for OMB Review; Joint Comment Request

AGENCIES: Office of the Comptroller of the Currency (OCC), Treasury; Board of Governors of the Federal Reserve System (Board); and Federal Deposit Insurance Corporation (FDIC).

ACTION: Notice of information collection to be submitted to OMB for review and approval under the Paperwork Reduction Act of 1995.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the OCC, the Board, and the FDIC (the "agencies") may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. On February 21, 2013, the agencies, under the auspices of the Federal Financial Institutions Examination Council (FFIEC), requested public comment for 60 days on a proposal to extend, with revision, the Consolidated Reports of Condition and Income (Call Report), which are currently approved collections of information. After considering the comments received on the proposal, the FFIEC and the agencies would proceed with the following proposed revisions effective June 30, 2013: (1) A scope revision to an item in the equity capital reconciliation; and (2) reporting changes for large and highly complex institutions for deposit insurance assessment purposes. Certain modifications have been made to the assessment reporting changes in response to comments received. The FFIEC and the agencies are continuing to evaluate the other Call Report changes proposed in February 2013 in light of the comments received and would not implement these changes as of June 30, 2013 (and, in one case, as of December 31, 2013), as had been proposed. The FFIEC's and the agencies' decisions regarding these additional proposed data items would be the subject of a separate **Federal Register** notice.

DATES: Comments must be submitted on or before June 24, 2013.

ADDRESSES: Interested parties are invited to submit written comments to any or all of the agencies on the revisions to the Call Report for June 30, 2013, for which the agencies are requesting approval from OMB. All comments, which should refer to the OMB control number(s), will be shared among the agencies.

OCC: Because paper mail in the Washington, DC, area and at the OCC is subject to delay, commenters are encouraged to submit comments by email if possible. Comments may be sent to: Legislative and Regulatory Activities Division, Office of the Comptroller of the Currency, Attention: 1557-0081, 400 7th Street SW., Suite 3E-218, Mail Stop 9W-11, Washington, DC 20219. In addition, comments may be sent by fax to (571) 465-4326 or by electronic mail to regs.comments@occ.treas.gov. You may personally inspect and photocopy comments at the OCC, 400 7th Street SW., Washington, DC 20219. For security reasons, the OCC requires that visitors make an appointment to inspect comments. You may do so by calling (202) 649-6700. Upon arrival, visitors will be required to present valid government-issued photo identification and to submit to security screening in order to inspect and photocopy comments.

All comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not enclose any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.
