the knowledge and experience of the Fund with managing a mine that is located on the Property. Further, the participant questioned whether it is prudent to spend 83% of the Fund’s cash on the Purchase.

Trustees’ Response

In response to the participant’s comments, the Trustees note that the decision to purchase the Property was a financial decision made by the Trustees for the benefit of the participants and beneficiaries of the Fund. The Trustees state further that all of the Trustees are familiar with the matters regarding the Purchase. According to the Trustees, the decision to purchase the Property by the Fund is not a union matter or a decision that the union or its members were required or permitted to make.

With respect to the knowledge and experience of the Fund to manage the mine, the Trustees state that there is no requirement that the Fund manage the mine or conduct mining activities on the Property. The Trustees point out that the Property will be used for the purpose of truck driving, heavy equipment training, and equipment storage underneath the surface where the mine is located. The Trustees explain that they expect to oversee and employ proper personnel to handle issues of maintenance when necessary.

In response to the participant’s comment regarding the high percentage of the Fund’s assets involved in this Purchase, the Trustees represent that the decision to purchase the Property was made with due diligence as established and required by the regulations under the Act. The Trustees represent further that based on this due diligence, they have determined that purchasing the Property is in the Fund’s best interest. The Trustees note that the Fund will be able to make any changes or additions to future training requirements of the Training Fund and its apprenticeship program without the consent or outside interference from other parties. In addition, the Fund will acquire an equity interest in the Property which will, in return, have a future value as a plan asset, and the Purchase is a transaction that is customary for similarly situated employee benefit plans.

After giving full consideration to the entire record, including the written comments, the Department has decided to grant the exemption, as described above. The complete application is made available for inspection in the Public Disclosure Room of the Employee Benefits Security Administration, Room N–1513, U.S. Department of Labor, 200 Constitution Ave. NW., Washington, DC 20210.

For a complete statement of the facts and representations supporting the Department’s decision to grant this exemption, refer to the proposed exemption published in the Federal Register on December 28, 2012 at 77 FR 76776.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) This exemption is supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of this exemption is subject to the express condition that the material facts and representations contained in the application accurately describes all material terms of the transaction which is the subject of the exemption.
