

waters; wetlands and floodplains; biological resources; cultural resources; land use and aesthetic resources; noise; material use and waste generation; human health and safety; community services; and environmental justice.

Construction and operation of a natural gas-fired turbine at the W.A. Parish Plant under the no-action alternative would be a new source with emissions of criteria pollutants and GHG. The criteria pollutant emissions associated with the facility are estimated to be: 102.1 tpy of CO, 37.6 tpy of NO<sub>x</sub>, 75.1 tpy of PM<sub>10</sub>, 71.7 tpy of PM<sub>2.5</sub>, 6.9 tpy of SO<sub>2</sub>, and 12.88 tpy of VOC. These potential emission increases were evaluated by TCEQ, and are authorized in the permit that it issued on December 21, 2012. The GHG emissions associated with the turbine are estimated to be: 582,328 tpy of CO<sub>2</sub>, 2.44 tpy of H<sub>2</sub>SO<sub>4</sub>, and 34.2 tpy of NH<sub>3</sub>. Since there will be no emission reductions to offset the emission increases from the turbine; there would be an overall increase in GHG emissions. These GHG emission increases would have to be authorized under a PSD permit from the EPA. There would also be no commercial-scale demonstration of advanced coal-based power generation technologies to capture CO<sub>2</sub> for EOR and ultimate sequestration.

Construction of the natural gas-fired turbine at the W.A. Parish Plant would temporarily increase traffic during construction (up to 100 workers), but would be easily accommodated by the existing road systems with only minor temporary disruptions. The personnel employed during construction of the turbine would result in minor short-term beneficial impacts by consumption of goods and services. Construction of the natural gas-fired turbine would likely result in a moderate, beneficial impact to taxes and revenue within the ROI.

The construction and operations phases of the natural gas-fired turbine would increase demand for potable and industrial water; and wastewater treatment services. Construction-related impacts to water supplies would be short term and negligible to minor. Construction-related impacts to wastewater treatment would be negligible. Operations impacts to water supplies would be negligible. Operations of the turbine would result in negligible impacts to the natural gas supply as compared to existing use (i.e., much less than 1 percent of the current maximum usage). The turbine would supply electricity that would be available for commercial sale through the power grid, and would be a

beneficial impact until the electricity and steam are needed for the capture facility.

#### Environmentally Preferred Alternative

From a local perspective, the no-action alternative is the environmentally preferable alternative because it would result in no changes to the existing environmental conditions, with the exception of the natural gas-fired turbine, which NRG has begun constructing and plans to operate with or without DOE funding. However, from a national perspective, DOE's proposed action is the environmentally preferred alternative. Successful demonstration of the proposed project could facilitate the deployment of carbon capture, utilization and storage (sequestration) practices at power plants and other industrial facilities in an effort to reduce greenhouse gas emissions that would otherwise occur with the continued combustion of fossil fuels, especially coal, from large stationary sources.

Issued in Pittsburgh, Pennsylvania, on this 8th of May 2013.

## DEPARTMENT OF ENERGY

### Environmental Management Site-Specific Advisory Board, Idaho National Laboratory

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Idaho National Laboratory. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

**DATES:** Wednesday, June 12, 2013 8:00 a.m.–5:00 p.m.

The opportunities for public comment will be at 9:45 a.m. and 2:45 p.m.

These times are subject to change; please contact the Federal Coordinator (below) for confirmation of times prior to the meeting.

**ADDRESSES:** Hilton Garden Inn, 700 Lindsay Boulevard, Idaho Falls, Idaho 83402.

**FOR FURTHER INFORMATION CONTACT:** Robert L. Pence, Federal Coordinator, Department of Energy, Idaho Operations Office, 1955 Fremont Avenue, MS–

1203, Idaho Falls, Idaho 83415. Phone (208) 526-6518; Fax (208) 526-8789 or email: [pencer1@id.doe.gov](mailto:pencer1@id.doe.gov) or visit the Board's Internet home page at: <http://inlcab.energy.gov/>.

#### SUPPLEMENTARY INFORMATION:

*Purpose of the Board:* The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

*Tentative Topics (agenda topics may change up to the day of the meeting; please contact Robert L. Pence for the most current agenda):*

- Recent Public Involvement
- Idaho Cleanup Project Progress to Date
- Sodium Bearing Waste Treatment Plant Update
- Results of Remote-Handled Transuranic Waste Negotiations with the State
- Discuss Hanford Cleanup Issues—Hanford 101
- National Transportation Stakeholders' Forum—Overview
- Waste Isolation Pilot Plant 101

*Public Participation:* The EM SSAB, Idaho National Laboratory, welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Robert L. Pence at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral presentations pertaining to agenda items should contact Robert L. Pence at the address or telephone number listed above. The request must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

*Minutes:* Minutes will be available by writing or calling Robert L. Pence, Federal Coordinator, at the address and phone number listed above. Minutes will also be available at the following Web site: <http://inlcab.energy.gov/pages/meetings.php>.

Issued at Washington, DC, on May 20, 2013.

**LaTanya R. Butler,**

*Deputy Committee Management Officer.*

## DEPARTMENT OF ENERGY

### Environmental Management Site-Specific Advisory Board, Oak Ridge Reservation

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge Reservation. The Federal Advisory Committee Act (Pub. L. No. 92-463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

**DATES:** Wednesday, June 12, 2013 6:00 p.m.

**ADDRESSES:** Department of Energy Information Center, Office of Science and Technical Information, 1 Science.gov Way, Oak Ridge, Tennessee 37830.

**FOR FURTHER INFORMATION CONTACT:**

Melyssa P. Noe, Federal Coordinator, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM-90, Oak Ridge, TN 37831. Phone (865) 241-3315; Fax (865) 576-0956 or email: [noemp@emor.doe.gov](mailto:noemp@emor.doe.gov) or check the Web site at [www.oakridge.doe.gov/em/ssab](http://www.oakridge.doe.gov/em/ssab).

**SUPPLEMENTARY INFORMATION:**

*Purpose of the Board:* The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

*Tentative Agenda:*

- Welcome and Announcements
- Comments from the Deputy Designated Federal Officer
- Comments from the DOE, Tennessee Department of Environment and Conservation, and Environmental Protection Agency Liaisons
- Public Comment Period
- Presentation on the National Environmental Management Program
- Additions/Approval of Agenda
- Motions/Approval of May 8, 2013 meeting minutes
- Status of Recommendations with DOE
- Committee Reports
- Federal Coordinator Report
- Adjourn

*Public Participation:* The EM SSAB, Oak Ridge, welcomes the attendance of

the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Melyssa P. Noe at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda item should contact Melyssa P. Noe at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

*Minutes:* Minutes will be available by writing or calling Melyssa P. Noe at the address and phone number listed above. Minutes will also be available at the following Web site: <http://www.oakridge.doe.gov/em/ssab/board-minutes.html>.

Issued at Washington, DC, on May 20, 2013.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP13-474-000]

#### Texas Eastern Transmission, LP; Prior Notice Activity Under Blanket Certificate

On May 8, 2013, Texas Eastern Transmission, LP (Texas Eastern), filed a prior notice request pursuant to Sections 157.205, 157.213, and 157.216 of the Commission's regulations under the Natural Gas Act, and Texas Eastern's blanket certificate issued in Docket No. CP82-535-000. Texas Eastern seeks authorization to convert an existing injection/withdrawal well to an observation well, and to abandon an associated storage lateral line and ancillary facilities at the Accident Storage Field in Garrett County, Maryland.

Questions regarding this application may be directed to Lisa A. Connolly, General Manager, Rates & Certificates,

Texas Eastern Transmission, LP, P.O. Box 1642, Houston, Texas 77251-1642, or by calling 713 627-4102, by faxing 713 627-5947, or by emailing [laconnolly@spectraenergy.com](mailto:laconnolly@spectraenergy.com).

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review (NSER). If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a NSER will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the regulations under the NGA (18 CFR 157.205), a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the allowed time for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such motions or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the
