SUPPLEMENTARY INFORMATION: On
January 17, 2013, notice was published in
the Federal Register (78 FR 3882)
that a modification to Permit No. 13543,
issued April 30, 2009 (74 FR 20926),
had been requested by the above-named
organization. The requested
modification has been granted under the
authority of the Endangered Species Act
of 1973, as amended (ESA; 16 U.S.C.
1531 et seq.) and the regulations
governing the taking, importing, and
exporting of endangered and threatened
species (50 CFR 222–226).

Permit No. 13543 authorizes the
permit holder to handle, measure,
weigh, affix a passive integrated
transponder tag, flipper tag, and
photograph sea turtles that have already
been captured by authorized coastal
trawl surveys in waters from North
Carolina to Florida. The purpose of the
research is to further the understanding
of the growth, distribution, and life
history of sea turtles. The permit
modification, No. 13543–01 authorizes
the requested increase in annual take
limits for Kemp’s ridley (Lepidochelys
kempii) and loggerhead (Caretta caretta)
sea turtles to accommodate recent
increases in capture rates of these
species in the trawl surveys. The permit
is valid through April 30, 2014.

Issuance of this modification, as
required by the ESA, was based on a
finding that such permit (1) was applied
for in good faith, (2) will not operate to
the disadvantage of such endangered or
threatened species, and (3) is consistent
with the purposes and policies set forth
in section 2 of the ESA.
