B. Basis and Purpose

Fireworks display events are frequently held on or adjacent to navigable waters within the boundary of the Fifth Coast Guard District. For a description of the geographical area of each Coast Guard Sector—Captain of the Port Zone, please see 33 CFR 3.25. The Table to Sec. 165.506, event (b)(3), establishes the enforcement date for the annual Independence Day holiday fireworks event held in Baltimore County, MD. That date is generally the July–Saturday before July 4. The Eastern Yacht Club, which is the sponsor for this event, holds this event annually. On July 6, 2013, the Eastern Yacht Club will sponsor its annual fireworks event. This event will take place in Baltimore County, MD on the waters of the Middle River. The regulation at 33 CFR 165.506 is enforced annually for this event. Also, a fleet of spectator vessels is expected to gather near the event site to view the fireworks. To provide for the safety of participants, spectators, and transiting vessels, the Coast Guard temporarily restricts vessel traffic in the event area from 8 p.m. to 10:30 p.m. on the date of the event. The regulation at 33 CFR 165.506 will be enforced for the duration of the event. Vessels may not enter the regulated area unless they receive permission from the Coast Guard Captain of the Port Baltimore or the designated on-scene patrol personnel.

C. Discussion of Proposed Rule

This regulation proposes to temporarily change the enforcement period for a safety zone for an annually recurring fireworks event, described at (b)(3) of the Table to 33 CFR 165.506, that is normally scheduled to occur each year on July—Saturday before Independence Day holiday.

This regulation temporarily changes the date for the fireworks event. The date is changed to July—Saturday after Independence Day holiday. The temporary safety zone will be enforced from 8 p.m. to 10:30 p.m. on July 6, 2013, and will restrict general navigation in the regulated area during the event. Except for participants and vessels authorized by the Coast Guard Captain of the Port Baltimore or the designated on-scene patrol personnel, no person or vessel will be allowed to enter or remain in the regulated area. This regulation is needed to control vessel traffic during the event to enhance the safety of participants, spectators and transiting vessels.

D. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

Although this regulation would restrict access to this area, the effect of this proposed rule will not be significant because: (i) the safety zone will only be in effect from 8 p.m. to 10:30 p.m. on July 6, 2013, (ii) the Coast Guard will give advance notification via maritime advisories so mariners can adjust their plans accordingly, and (iii) although the safety zone will apply to a section of the Middle River, vessel traffic will be able to transit safely around the safety zone.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.
The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities. This proposed rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to operate, transit, or anchor in the specified portions of the Middle River, from 8 p.m. through 10:30 p.m. on July 6, 2013. This proposed safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: (i) The regulated area is of limited size, (ii) this proposed rule will only be in effect for 2½ hours, and (iii) although the safety zone will apply to a section of the Middle River, vessel traffic will be able to transit safely around the safety zone. Before the enforcement period, the Coast Guard will issue maritime advisories widely available to users of the waterway, to allow mariners to make alternative plans for transiting the affected area.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the FOR FURTHER INFORMATION CONTACT, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves implementation of regulations at 33 CFR part 165 that establish safety zones on navigable waters of the United States for fireworks events. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
