III. What is the Agency’s authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the Federal Register.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) provides for the possibility of a 180-day comment period where the voluntary cancellation involves a pesticide registered for at least one minor agricultural use. Because these allethrins products are not registered for any minor agricultural uses, this 180-day comment provision does not apply, and EPA is providing a 30-day comment period on the proposed voluntary cancellation of allethrins registrations.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under FOR FURTHER INFORMATION CONTACT. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because these allethrins products are re-registered pesticides, there are no known risks of concern, and the cancellation date for the technical products will occur several years prior to the time of the planned registration review decision for the allethrins, the Agency expects to grant these requests unless the Agency receives substantive comments that warrant further review of the requests or the registrants withdraw their request. In 2013, EPA intends to issue an order in the Federal Register canceling all of the manufacturing use registrations as of September 30, 2015, and end use product registrations as of December 31, 2016. It is the Agency’s current intention to include in that order the following terms and conditions applicable to existing stocks:

- No sale or distribution of allethrins manufacturing use products by any person, other than for purposes of disposal or export, will be permitted after September 30, 2015.
- No use of the manufacturing use products to formulate end-use products will be permitted after December 31, 2015.
- As of January 1, 2017, persons other than registrants will be allowed to sell, distribute, or use existing stocks of cancelled end use products until such stocks are exhausted. Use of existing stocks will be permitted only to the extent that the use is consistent with the terms of the previously-approved labeling accompanying the product used.
