*This notice also lists the following information:*

*Title of Proposed:* Energy and Performance Information Center.

*OMB Approval Number:* 2577-0274.

*Form Numbers:* None.

*Description of the need for the information and proposed use:* The Department has recognized the need for improving energy efficiency in affordable housing and has prioritized this in Agency Priority Goal # 4, Measure # 13. The Department pioneered its data collection in this area with the American Recovery and Reinvestment Act of 2009 in creating the Recovery Act Management Performance System ("RAMPS"). The data collected through the RAMPS gave the Department a more comprehensive dataset regarding energy efficient improvements than it had ever had previously. The EPIC data system builds upon the successes of the RAMPS and adds data collection for other areas. This form is to revise the collection to include other information. Some of this information is presently collected in paper form and will be collected electronically through the EPIC data system. The EPIC data system will gradually automate the collection of the five year plan and annual statement forms from grantees. These are required forms presently collected in hard copy

on Forms 50075.1 and 50075.2 under collection OMB control number 2577-0226. These forms also collect data on the eventual, actual use of funds; this data will be gradually collected electronically through the EPIC data system as well. Electronic collection will enable the Department to aggregate information about the way grantees are using Federal funding. Additionally, PHA grantees will be able to submit Replacement Housing Factor fund plans, the mechanism by which PHAs are allowed to accumulate special funds received based on units removed from the inventory from year to year. This information is presently collected in hard copy at the field office level; the EPIC data system will automate and centralize this collection in order to streamline the process and improve transparency. Furthermore, the EPIC data system will be loaded with Physical Needs Assessment ("PNA") data. This data being in the system coupled with the electronic planning process will streamline grantee planning. The EPIC data system will collect information about the Energy Performance Contract ("EPC") process such as energy efficiency improvement financed under an EPC, and construction start and completion date. It will also collect the energy efficiency improvements information on the types previously captured through the RAMPS for Public Housing Capital Fund Recovery grants. As the Department moves to shrink its energy footprint in spite of rising energy costs, clear and comprehensive data on this process will be crucial to its success. Finally, the Department has prioritized in Agency Performance Goal # 2, Measure # 5 making housing more available for more families. In the light of the recent housing crisis, this goal has become simultaneously more challenging and more important. Tracking of the use of Federal funds paid through the Public Housing Capital Fund, the only Federal funding stream dedicated to the capital needs of the nation's last resort housing option, is crucial to understanding how the Department can properly and efficiently assist grantees in meeting this goal as well as assessing the Department's own progress. The EPIC data system will track development of public housing with Federal funds and through other means, including mixed-finance development.

*OMB Approval Number:* 2577-0267.

*Form Numbers:* HUD-52676 and HUD-52676-I.

*Description of the need for the information and proposed use:* In accordance with statutory requirements at 5 U.S.C. 552a, as amended (most commonly known as the Federal Privacy Act of 1974), the Department is required to account for all disclosures of information contained in a system of records. As such, the collection of information about the user and the type of system access required by the prospective user is required by HUD to: (1) Identify the user; (2) determine if the prospective user in fact requires access to the EIV system and in what capacity; (3) provide the prospective user with information related to the Rules of Behavior for system usage and the user's responsibilities to safeguard data accessed in the system once access is granted; and (4) obtain the signature of the prospective user to certify the user's understanding of the Rules of Behavior and responsibilities associated with his/her use of the EIV system. HUD collects the following information from each prospective user: Public Housing Agency (PHA) code, organization name, address, prospective user's full name, HUD-assigned user ID, position title, telephone number, facsimile number, type of work which involves the use of the EIV system, type of system action requested, requested access roles to be assigned to prospective user, public housing development numbers to be assigned to prospective PHA user, and prospective user's signature and date of request. The information is collected electronically and manually (for those who are unable to transmit electronically) via a PDFfillable or Word-fillable document, which can be emailed, faxed or mailed to HUD. If this information is not collected, the Department will not be in compliance with the Federal Privacy Act and be subject to civil penalties.
