Grand Ditch Breach Restoration, Final Environmental Impact Statement, Rocky Mountain National Park, Colorado

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of Availability of the Final Environmental Impact Statement for the Grand Ditch Breach Restoration, Rocky Mountain National Park.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of a Final Environmental Impact Statement for the Grand Ditch Breach Restoration, Rocky Mountain National Park, Colorado.

DATES: The National Park Service will execute a Record of Decision (ROD) no sooner than 30 days following publication by the Environmental Protection Agency of the Notice of Availability of the Final Environmental Impact Statement.

ADDRESSES: Information will be available for public inspection online at <http://parkplanning.nps.gov/romo>, in the office of the Superintendent, Vaughn Baker, 1000 US Highway 36, Estes Park, CO 80517-8397, 970-586-1200 and at the Public Information Office, Rocky Mountain National Park, 1000 US Highway 36, Estes Park, Colorado 80517-8397.

FOR FURTHER INFORMATION CONTACT: Public Information Office, Rocky Mountain National Park, 1000 US Highway 36, Estes Park, Colorado 80517-8397, (970) 586-1206.

SUPPLEMENTARY INFORMATION: The document describes five management alternatives including a no-action alternative and the National Park Service preferred alternative. The anticipated environmental impacts of those alternatives are analyzed. The final document also includes responses to substantive comments from the public, cooperating agencies, and government agencies. The no-action

alternative, alternative A, would extend existing conditions and management trends into the future. This alternative serves as a basis of comparison for evaluating the action alternatives. Minimal restoration, alternative B, would emphasize less intensive management activity to restore portions of the impacted area. This alternative would focus actions on areas that are unstable and present a high potential of continued degradation of ecosystem resources and services. High restoration, alternative C, would involve more intensive management actions over large portions of the impacted area. This alternative would focus actions on unstable areas that present a high to moderate potential of continued degradation of existing ecosystem resources and services. The preferred alternative, alternative D, would emphasize the removal of large debris deposits in the alluvial fan area and in the Lulu City wetland. Actions would be conducted to stabilize limited areas of unstable slopes and banks throughout the upper portions of the restoration area. Hydrology through the Lulu City wetland would be restored in the historical central channel through removal of large deposits of debris, relying on the historical channel to transport river flow. Small-scale motorized equipment would be employed for stabilization and revegetation activities, while larger equipment would be employed for excavation of large debris deposits and reconfiguration of the Colorado River through the Lulu City wetland. This alternative would include stabilization of zone 1A under the preferred option, option 1. Maximum restoration, alternative E, would involve extensive management activity and use of motorized equipment over large portions of the impacted area to restore the damage.

Dated: December 20, 2012.

John Wessels,

Director, Intermountain Region, National Park Service.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before May 4, 2013. Pursuant to section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation. Comments may be forwarded by United States Postal Service, to the National Register of Historic Places, National Park Service, 1849 C St. NW., MS 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447. Written or faxed comments should be submitted by June 14, 2013. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: May 13, 2013.

Record of Decision for the General Management Plan, Blue Ridge Parkway, Virginia and North Carolina

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of the Record of Decision (ROD) for the General Management Plan (GMP) for Blue Ridge Parkway (parkway). On April 13, 2013, the Regional Director, Southeast Region, approved the ROD for the project.

FOR FURTHER INFORMATION CONTACT: Superintendent Phil Francis, Blue Ridge Parkway, 199 Hemphill Knob Road, Asheville, NC 28803; telephone (828) 271–4779.

SUPPLEMENTARY INFORMATION: The NPS evaluated three alternatives for managing use and development of the parkway in the GMP/FEIS, Alternative A—no action Alternative, and two action Alternatives. The preferred alternative (Alternative B) from the FEIS/GMP is the alternative selected for implementation. Alternative B emphasizes the original parkway design and traditional driving experience, while enhancing outdoor recreation

opportunities and regional natural resource connectivity, and providing modest improvements to visitor services. To support that experience, many of the parkway's recreation areas will provide enhanced opportunities for dispersed outdoor recreation activities. This action will proactively blend newer law and policy requirements and operational constraints with the traditional parkway concept developed from 1935 to 1955. As a result, the selected action will provide a better balance between traditional parkway experiences and modern-day management realities. Under Alternative C, parkway management would be more integrated with the region's resources and economy, while enhancing parkway visitor services.

The selected action will provide a comprehensive parkway-wide approach to resource and visitor use management. Specific management zones detailing acceptable resource conditions, visitor experience, use levels, appropriate activities and development will be applied to parkway lands (parkway segments and recreation areas) consistent with this concept. The selected action will also seek to enhance resource protection, regional natural resource connectivity, and build stronger connections with adjacent communities. The GMP will guide the management of the parkway over the next 20+ years.

The responsible official for this FEIS/GMP is the Regional Director, NPS Southeast Region, 100 Alabama Street SW., 1924 Building, Atlanta, Georgia 30303.

Dated: May 14, 2013.

Gordon Wissinger,

Acting Regional Director, Southeast Region.
