

The authors mention that the most frequently found disease processes were bacterial pneumonia and sepsis/ bacteremia secondary to pyoderma, but, other than mentioning a few specific disease findings, do not detail or analyze frequency of all the diseases found in each species. The Bogomolni *et al.* 2010 paper is open access and available at http://www.int-res.com/articles/dao_0a/d088p143.pdf. We have rewritten the sentence slightly to read: "In an analysis of mortality causes of stranded marine mammals on Cape Cod and southeastern Massachusetts between 2000 and 2006, Bogomolni *et al.* (2010) found 69% (46 of 67) of stranded white-sided dolphins were involved in mass-stranding events with no significant findings, and 21% (14 of 67) were classified as disease related."

Comment 4: The Humane Society of the U.S. and the Center for Biological Diversity commented that the Atlantic Scientific Review Group (SRG) was not consulted prior to NMFS using these revised abundance and bycatch estimates for management purposes. The commenters believe the errors in computation and the proposed changes to the SARs should have been brought to the attention of the SRG prior to being used in management or presented to the public as part of any take reduction team process. In the future, if NMFS is considering amending a SAR after a draft was released for public comment, it should first consult with the appropriate SRG prior to using a revised SAR for purposes of management of a stock.

Response: The issues raised by the Humane Society of the U.S. and the Center for Biological Diversity were addressed at the March 2013 Atlantic SRG meeting. NMFS and the SRG delineated a process that will ensure SRG review of new or revised abundance and mortality estimates and methods prior to their release at other forums (e.g., Take Reduction Teams).

Dated: May 23, 2012.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC700

**Endangered and Threatened Species;
Take of Anadromous Fish**

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability and request for comment.

SUMMARY: Notice is hereby given that NMFS has prepared a draft Environmental Assessment under the National Environmental Policy Act (NEPA) of the potential effects of the issuance of a direct take permit for a hatchery program in Nason Creek, in the upper Columbia River basin. The permit application was provided by the Washington Department of Fish and Wildlife (WDFW) and the Public Utility District No. 2 of Grant County (Grant PUD). The proposed permit would be issued for a period of 10 years. This document serves to notify the public of the draft environmental assessment for public review, comment, and submission of written data, views, arguments, or other relevant information before a final decision on whether to issue a Finding of No Significant Impact is made by NMFS. Also available for public review and comment are two addenda, one updating the Nason Creek application and one describing a proposed adult management program associated with spring Chinook salmon hatchery plans for major tributaries to the Wenatchee River. All comments and other information received will become part of the public record and will be available for review pursuant to section 10(c) of the ESA.

DATES: Comments and other submissions must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5:00 p.m. Pacific time on June 13, 2013.

ADDRESSES: Written responses to the draft environmental assessment should be sent to Allyson Purcell, National Marine Fisheries Services, Salmon Management Division, 1201 N.E. Lloyd Boulevard, Suite 1100, Portland, OR 97232. Comments may also be submitted by email to: NasonCreekPlan.nwr@noaa.gov. Include in the subject line of the email comment the following identifier: Comments on the Nason Creek Hatchery Assessment. When commenting on the draft environmental assessment, please refer

to the specific page number and line number of the subject of your comment. Comments may also be sent via facsimile (fax) to (503) 872-2737. Requests for copies of the draft environmental assessment should be directed to the National Marine Fisheries Services, Salmon Management Division, 1201 N.E. Lloyd Boulevard, Suite 1100, Portland, OR 97232. The documents are also available on the Internet at www.nwr.noaa.gov. Comments received will also be available for public inspection, by appointment, during normal business hours by calling (503) 230-5418.

FOR FURTHER INFORMATION CONTACT: Allyson Purcell at (503) 736-4736 or email: allyson.purcell@noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

Chinook salmon (*Oncorhynchus tshawytscha*): endangered, naturally produced and artificially propagated Upper Columbia River spring-run.

Steelhead (*Oncorhynchus mykiss*): threatened, naturally produced and artificially propagated Upper Columbia.

Background

Section 9 of the ESA and Federal regulations prohibit the "taking" of a species listed as endangered or threatened. The term "take" is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits to take listed species for any act otherwise prohibited by section 9 for scientific purposes or to enhance the propagation or survival of the affected species, under section 10(a)(1)(A) of the ESA. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

On September 15, 2009, Grant PUD and the Washington Department of Fish and Wildlife submitted an application for an ESA permit to operate the Nason Creek spring Chinook salmon artificial propagation (hatchery) program. That application was made available previously for public review and comment (75 FR 14133, March 24, 2010). The hatchery program would collect adult spring Chinook salmon at Tumwater Dam or a Nason Creek weir; spawn, incubate, hatch, and rear the resulting progeny at Eastbank Hatchery and an acclimation facility to be constructed on Nason Creek; release juvenile Chinook salmon into Nason Creek; and manage natural and hatchery adult returns. Adult natural-origin fish in excess of broodstock needs could be

released to spawn naturally; adult hatchery-origin fish in excess of broodstock needs could be used for nutrient enhancement or be made available for harvest. The application describes monitoring and evaluation activities that would also occur. The purpose of this program is to enable Grant PUD to comply with the terms of the Priest Rapids Project Salmon and Steelhead Settlement Agreement and its Federal Energy Regulatory Commission license for the operation of the Priest Rapids Hydroelectric Project.

Subsequent to providing the original application, the WDFW provided an addendum to the HGMP describing how management of returning adult spring Chinook salmon would be addressed in conjunction with the hatchery program. The adult management plan represents an important component of the permit application.

Authority

NEPA requires Federal agencies to conduct an environmental analysis of their proposed actions to determine if the actions may affect the human environment. NMFS expects to take action on an application for a permit under section 10(a)(1)(A) of the ESA. Therefore, NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives and associated impacts of any alternatives.

Dated: May 24, 2013.

Angela Somma,

Chief, Endangered Species Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Proposed Information Collection; Comment Request

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service (CNCS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested

data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirement on respondents can be properly assessed.

Currently, CNCS is soliciting comments concerning its proposed renewal of the Peer Reviewer Application (OMB Number 3045-0090), used by CNCS to recruit external reviewers to assess grant applications. The information will be provided by individuals wishing to serve as peer review participants for CNCS' grant review processes. The completion of this information collection is required to be considered as a potential reviewer for CNCS.

Copies of the information collection request can be obtained by contacting the office listed in the addresses section of this notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by July 29, 2013.

ADDRESSES: You may submit comments, identified by the title of the information collection activity, by any of the following methods:

(1) *By mail sent to:* Corporation for National and Community Service, Office of Grant Policy and Operations, Attention: Vielka Garibaldi, Acting Director, Office of Grants Policy and Operations, Room 9303; 1201 New York Avenue NW., Washington, DC, 20525.

(2) By hand delivery or by courier to the CNCS mailroom at Room 8100 at the mail address given in paragraph (1) above, between 9:00 a.m. and 4:00 p.m. Eastern Time, Monday through Friday, except Federal holidays.

(3) *By fax to:* (202) 606-3475, Attention: Vielka Garibaldi, Director, Office of Grants Policy and Operations.

(4) Electronically through www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:

Individuals who use a telecommunications device for the deaf (TTY-TDD) may call 1-800-833-3722 between 8:00 a.m. and 8:00 p.m. Eastern Time, Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Vielka Garibaldi, (202) 606-6886, or by email at vgaribaldi@cns.gov.

SUPPLEMENTARY INFORMATION: CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background:

CNCS provides grants on a competitive basis to support organizations that use service as a strategy for addressing national and community needs. As part of the grant applications review process, CNCS uses external reviewers to assess the quality of grant proposals submitted to CNCS. The peer reviewer application is used by individuals that wish to serve as peer reviewers or peer review panel coordinators for CNCS' grant reviews. The information collected will be used by CNCS to select review participants for each grant competition. The information is collected electronically using eGrants, CNCS' web-based grant management system.

Current Action:

CNCS seeks to renew the current information collection. Minor revisions are proposed to clarify eGrants instructions and reflect adjustments to the Corporation for National and Community Service eGrants system. The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on September 30, 2013.

Type of Review: Renewal.

Agency: Corporation for National and Community Service.

Title: Corporation for National and Community Service.

OMB Number: 3045-0090.

Agency Number: None.

Affected Public: Individuals who are interested in serving as peer reviewers and peer review panel coordinators for CNCS.

Total Respondents: 2,000.

Frequency: One time to complete.

Average Time per Response: Averages 40 minutes.

Estimated Total Burden Hours: 1,333 hours.

Total Burden Cost (capital/startup): None.
