SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified

issue fee (including the publication fee, if applicable) within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. If the fees are not paid within the designated time period, the application is abandoned and the applicant may petition the Director to accept a delayed payment with a satisfactory showing that the delay was unavoidable or unintentional. The Petition for Revival of an Application for Patent Abandoned Unavoidably (Form PTO/SB/61) and the Petition for Revival of an Application for Patent Abandoned Unintentionally (Form PTO/SB/64) are approved under information collection 0651-0031. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18 and 1.311-1.317.

Chapter 25 of Title 35 U.S.C. provides for several actions that an applicant may take after issuance of a patent, including requesting a certificate of correction to correct an error or errors in the patent. If the USPTO determines that the request should be approved, the USPTO will issue a certificate of correction. For an original patent that is believed to be wholly or partly inoperative, the assignee(s) or inventor(s) may apply for reissue of the patent, which entails

several formal requirements including an oath or declaration stating that the errors in the patent were not the result of any deceptive intention on the part of the reissue applicant. If additional errors are corrected after the filing of the reissue application and the original reissue oath/declaration, the reissue applicant must submit a supplemental oath or declaration stating that the additional errors also occurred without any deceptive intent. The rules outlining these procedures are found at 37 CFR 1.171-1.178 and 1.322-1.325.

The public uses this information collection to request corrections of errors in issued patents, to submit applications for reissue patents, and to submit issue fee payments. The USPTO is removing the fee costs associated with the information requirements in this collection because these fees have been moved into information collection 0651-0072, which was approved by OMB in January 2013 in conjunction with the USPTO rulemaking "Setting and Adjusting Patent Fees" (RIN 0651-AC54).
