Las Vegas Wash Hydro LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On November 16, 2012, Las Vegas Wash Hydro LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Las Vegas Wash Hydroelectric Project (project) to be located on the Las Vegas Wash, in Clark County, Nevada. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of an existing concrete diversion/inlet structure for the Las Vegas Wash that passes beneath Lake Las Vegas via two 84-inch-diameter penstocks for a distance of 10,208 feet. Las Vegas Wash Hydro LLC proposes to tie into the existing penstocks and construct a new powerhouse. One of the two existing 84-inch diameter penstocks would be

utilized for bypass flows. The powerhouse would be equipped with a single 2.1-megawatt Francis turbine. The project would also consist of a switchyard and 900 feet of proposed 15-kilovolt transmission line that would interconnect into the utility distribution system owned by NV Energy. The project would generate an estimated 16.5 gigawatt-hours annually.
