community adjacent to the river. Beyond the riparian community are agricultural fields on the east side of the diversion dam and BLM land on the west side of the diversion dam that is primarily comprised of desert shrubs and grasses.

Environmental resources consist of the natural and man-made environment. Preliminary resource concerns associated with the rehabilitation of the diversion dam may include both beneficial and negative impacts to water quality and supply, fish, threatened and endangered species, cultural, recreation, aesthetics, and public health and safety.

Alternatives—NRCS is analyzing the following conceptual alternatives to rehabilitate the diversion dam:

- Repair Existing Diversion Dam: Repair the existing diversion to safely pass flood events.
- Replace Existing Diversion Dam: Demolish the existing diversion dam and install a new dam in the same location.
- Replace Diversion Dam Downstream: Demolish the existing diversion dam and install a new diversion dam downstream.
- Replace Diversion Dam Upstream: Demolish the existing diversion dam and install a new diversion dam upstream.
- Diversion Decommissioning: Completely remove the diversion dam from the river and stabilize the diversion site. The existing water rights at the dam would be supplemented via pumping out of the river or other options to provide water to the water rights holders.
- Fish Passage Upstream/Downstream: Construct a passage system(s) on the dam to allow safe upstream and downstream passage of fish over the diversion dam.
- Electric Fish Barrier: Install an electric fish barrier to prevent fish from swimming into the powerhouse and irrigation canal on the west side of the diversion dam.
- Fish Barrier: Install a fish barrier to prevent fish from swimming into irrigation canal on the east side of the diversion dam.
- Boat Passage Upstream/Downstream: Construct a passage system(s) on the dam to allow safe downstream passage of boats past the diversion dam.

NRCS will consider any viable alternatives brought forward during scoping if it is substantially different from the alternatives described above. NRCS will also study a No-Action alternative which would consist of no Federal money used for the rehabilitation of the diversion dam.

Cooperating Agencies—Federal, state, and local agencies that may be interested in or affected by the project may request or be requested by NRCS to become a cooperating agency in the development of the EIS.

Signed this 24th day of May, 2013, in Salt Lake City, Utah.

David C Brown,
Utah State Conservationist, Natural Resources Conservation Service.

Natural Resources Conservation Service

Non-Rock Alternatives to Shoreline Protection Demonstration Project (LA–16) Iberia, Jefferson, and Lafourche Parishes, LA

AGENCY: Natural Resources Conservation Service, Department of Agriculture.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Non-Rock Alternatives to Shoreline Protection Demonstration Project (LA–16), Iberia, Jefferson, and Lafourche Parishes, Louisiana.

SUPPLEMENTARY INFORMATION: An environmental assessment of the federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, W. Britt Paul, Acting State Conservationist, has determined that preparation and review of an environmental impact statement is not needed for this project.

The project will install and monitor various shoreline protection systems in areas of the state where physical, logistical and environmental limitations preclude the use of rock structures. The shoreline protection systems will be demonstrated in up to three (3) test sites in coastal Louisiana. Up to five (5) “non-rock” shoreline protection systems will be installed in 500 linear foot sections at each site, extending a maximum of 4,200 linear feet (including buffer areas) along the shoreline at each site. The sites selected include the western side of the peninsula separating Vermilion and Weeks Bay in Iberia Parish; the southeast shoreline of Lake Salvador in Jefferson Parish; and the western shoreline of Bayou Perot in Lafourche Parish.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data collected during the environmental assessment are on file and may be reviewed by contacting W. Britt Paul.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the Federal Register.

W. Britt Paul,
Acting State Conservationist.

Foreign-Trade Zones Board

[8–53–2013]

Notification of Proposed Production Activity, The Gas Company, LLC dba Hawai‘i Gas, Subzone 9F (Synthetic Natural Gas), Kapolei, Hawaii

The Gas Company, LLC dba Hawai‘i Gas (Hawai‘i Gas), operator of Subzone 9F, submitted a notification of proposed production activity to the Foreign-Trade Zones (FTZ) Board for their facility in Kapolei, Hawaii. The notification, confirming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 22, 2013.

The subzone currently has authority to produce synthetic natural gas, carbon dioxide, hydrogen, hydrocarbon gas mixtures and zinc sulfide using certain foreign-status feedstocks produced within Subzone 9A. The current request would allow Hawai‘i Gas to admit the feedstocks listed below from any source in foreign status. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished
products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Hawai‘i Gas from customs duty payments on the foreign status components used in export production. On its domestic sales, Hawai‘i Gas would be able to choose the duty rates during customs entry procedures that apply to synthetic natural gas, carbon dioxide, hydrogen, hydrocarbon gas mixtures and zinc sulfide (duty rate ranges from duty-free to 3.7%) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: mixtures of light petroleum derivative hydrocarbons, including medium to light naphthas; and, crude petroleum oils in the form of natural gas condensates (duty rate 10.5¢/barrel).

Public comment is invited from interested parties. Submissions shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is July 15, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the Board’s Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Elizabeth Whiteman at Elizabeth.Whiteman@trade.gov or (202) 482–1043.

Dated: May 24, 2013.

Andrew McGilvray, Executive Secretary.

Foreign-Trade Zones Board

Foreign-Trade Zone (FTZ) 267—Fargo, North Dakota: Notification of Proposed Production Activity; CNH America, LLC (Construction and Agricultural Equipment Production); Fargo, North Dakota

The Fargo Municipal Airport Authority, grantee of FTZ 267, submitted a notification of proposed production activity to the FTZ Board on behalf of CNH America, LLC (CNH), located in Fargo, North Dakota. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 10, 2013.

The CNH facilities are located within Site 2 of FTZ 267. The facilities currently have FTZ authority to produce tractors, wheel loaders, combine subassemblies and related equipment using certain foreign-sourced components. The current request involves additional agricultural and construction equipment, related subassemblies and components. Pursuant to 15 CFR 400.14(b), the additional FTZ authority would be limited to the specific foreign-status materials and components and specific finished products listed in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt CNH from customs duty payments on the foreign status components used in export production. On its domestic sales, CNH would be able to choose the duty rates during customs entry procedures that apply to additional agricultural and construction equipment and related subassemblies, including cab units, tractors, steps, undercarriages and track kits for combines, fenders, radiators, undercarriages and frames for tractors, battery doors, hydraulic tanks, draw bars and connecting links (duty rates range from free to 4%) for the foreign status inputs noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The additional components and materials sourced from abroad include: Rubber hoses/belts/floor mats; rings; cardboard floor pads/protectors/boxes/sheets/packaging; manuals; instruction sheets; pin stops; fittings; screws; washers; clips; ground straps; latches; plates; pumps; valves; fans; bushings; ballast assemblies; heaters; speakers; color monitors; rear view camera and camera kits; sensors; temperature sensor cables; switches; signals; electrical modules and switches; LED lights; radio antenna cable; wire/harness assemblies; bumpers; cab suspension system components; and heater controls (duty rates range from free to 8.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is July 15, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary; Foreign-Trade Zones Board; Room 21013; U.S. Department of Commerce; 1401 Constitution Avenue; NW; Washington, DC 20230–0002; and in the “Reading Room” section of the Board’s Web site; which is accessible via www.trade.gov/ftz.

For further information; contact Diane Finver at Diane.Finver@trade.gov or (202) 482–1367.

Elizabeth Whiteman, Acting Executive Secretary.

DEPARTMENT OF COMMERCE
International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“the Department”) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates. In accordance with the Department’s regulations, we are initiating those administrative reviews.

DATES: Effective Date: June 3, 2013.

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests, in accordance with 19 CFR 351.223(b), for administrative reviews of various antidumping and countervailing duty orders and findings with April anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by the Department discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports,
