§ 151.2070 Recordkeeping requirements.
(a) The master, owner, operator, agent, or person in charge of a vessel bound for a port or place in the United States, unless specifically exempted by § 151.2015 of this subpart, must ensure the maintenance of written records that include the following information:
(1) Vessel information. This includes the vessel’s name, International Maritime Organization (IMO) number (or other vessel identification number if IMO number is not issued), gross tonnage, total ballast water capacity, and country of registry (flag).
(2) Ballast water uptake information. This includes the date(s) and location(s) where the ballast water was taken on board, the volume(s) of the ballast water taken on board, and the numerical designation(s) of the tank(s) from which ballast water managed, the numerical designation(s) of the tank(s) receiving the ballast water. Record all volumes in cubic meters (m³).
(3) Ballast water management information. This includes the date(s) and location(s) where the management takes place, the volume(s) of ballast water managed, the numerical designation(s) of the tank(s) managed, and the management method used. Record all volumes in cubic meters (m³).
(4) Ballast water discharge information. This includes the date(s) and location(s) of where the ballast water was discharged, the volume(s) of ballast water discharged, the numerical designation(s) of the tank(s) from which the ballast water was discharged, and whether the discharge was into the surrounding waters or to a reception facility. Record all volumes in cubic meters (m³).
(5) Discharge of sediment. If sediment was discharged within the jurisdiction of the United States, include the name and location of the facility where the sediment discharge took place.
(6) Certification of accurate information. Include the master, owner, operator, agent, person in charge, or responsible officer’s printed name, title, and signature attesting to the accuracy of the information provided and that the activities were in accordance with the ballast water management plan required by § 151.2050(g). If exceptional circumstances required deviation from the plan, the details surrounding the need for deviation and associated actions must be explained.
(b) The master, owner, operator, agent, or person in charge of a vessel subject to this section must retain a signed copy of this information onboard the vessel for 2 years.
(c) The master, owner, operator, agent, or person in charge of a vessel subject to this section must retain the monitoring records required in 46 CFR 162.060–20(b) for 2 years. These records may be stored on digital media but must be readily viewable for Coast Guard inspection.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this
action if you are an agricultural
producer, food manufacturer, or
pesticide manufacturer. The following
list of North American Industrial
Classification System (NAICS) codes is
not intended to be exhaustive, but rather
provides a guide to help readers
determine whether this document applies
to them. Potentially affected entities may
include:

• Crop production (NAICS code 111).

• Animal production (NAICS code
  112).

• Food manufacturing (NAICS code
  311).

• Pesticide manufacturing (NAICS
  code 32532).

If you have any questions regarding the
applicability of this action to a
particular entity, consult the person
listed at the end of the pesticide petition
summary of interest.

B. What should I consider as I prepare
my comments for EPA?

1. Submitting CBI. Do not submit this
information to EPA through
regulations.gov or email. Clearly mark
the part or all of the information that
you claim to be CBI. For CBI
information in a disk or CD–ROM that
you mail to EPA, mark the outside of the
disk or CD–ROM as CBI and then
identify electronically within the disk or
CD–ROM the specific information that
is claimed as CBI. In addition to one
complete version of the comment that
includes information claimed as CBI, a
copy of the comment that does not
contain the information claimed as CBI
must be submitted for inclusion in the
general public docket. Information so
marked will not be disclosed except in
accordance with procedures set forth in

2. Tips for preparing your comments.
When submitting comments, remember to:

i. Identify the document by docket ID
number and other identifying
information (subject heading, Federal
Register date and page number).

ii. Follow directions. The Agency may
ask you to respond to specific questions
or organize comments by referencing a
Code of Federal Regulations (CFR) part
or section number.

iii. Explain why you agree or disagree;
suggest alternatives and substitute
language for your requested changes.

iv. Describe any assumptions and
provide any technical information and/
or data that you used.

v. If you estimate potential costs or
burdens, explain how you arrived at
your estimate in sufficient detail to
allow for it to be reproduced.

vi. Provide specific examples to
illustrate your concerns and suggest
alternatives.

vii. Explain your views as clearly as
possible, avoiding the use of profanity
or personal threats.

viii. Make sure to submit your
comments by the comment period
deadline identified.

3. Environmental justice. EPA seeks to
achieve environmental justice, the fair
treatment and meaningful involvement
of any group, including minority and/or
low-income populations, in the
development, implementation, and
enforcement of environmental laws,
regulations, and policies. To help
address potential environmental justice
issues, the Agency seeks information on
any groups or segments of the
population who, as a result of their
location, cultural practices, or other
factors, may have atypical or
disproportionately high and adverse
human health impacts or environmental
effects from exposure to the pesticides
discussed in this document, compared
to the general population.

II. What action is the agency taking?

EPA is announcing its receipt of
several pesticide petitions filed under
section 408 of the Federal Food, Drug,
and Cosmetic Act (FFDCA), (21 U.S.C.
346a), requesting the establishment or
modification of regulations in 40 CFR
Part 180 for residues of pesticide
chemicals in or on various food
commodities. The Agency is taking
public comment on the requests before
responding to the petitioners. EPA is not
proposing any particular action at this
time. EPA has determined that the
pesticide petitions described in this
document contain the data or
information prescribed in FFDCA
section 408(d)(2); however, EPA has not
fully evaluated the sufficiency of the
submitted data at this time or whether
the data support granting of the
pesticide petitions. After considering
the public comments, EPA intends to
evaluate whether and what action may
be warranted. Additional data may be
needed before EPA can make a final
determination on these pesticide
petitions.

Pursuant to 40 CFR 180.7(f), a
