Minimum requirement	Documentation
<p>3. Results of these studies have been published in a peer-reviewed journal or other professional publication (e.g. book volume) or documented in a comprehensive evaluation report.</p>	<p>Documentation must be provided to enable the rating of the six Quality of Research criteria (i.e., reliability of measures, validity of measures, intervention fidelity, missing data and attrition, potential confounding variables, and appropriateness of analysis). NOTE: Abstracts or URLs to partial articles are regarded as incomplete documentation and will not be considered. Meta-analyses will not be considered for review.</p>
<p>Readiness for Dissemination:</p>	
<p>4. Implementation materials, training and support resources, and quality assurance procedures have been developed and are ready for use by the public.</p>	<p>A brief narrative description and list of available materials, resources, and systems to support implementation (e.g., treatment manuals, information for administrators, tested training curricula, mechanisms for ongoing supervision and consultation, protocols for gathering process and outcome data, ongoing monitoring of intervention fidelity, processes for gathering feedback) and A brief description of the method through which new implementation sites acquire the above materials.</p>

Ineligible Interventions

The following types of interventions are not eligible for review:

1. Stand-alone pharmacologic treatments. The evidence base for pharmacologic treatments is reviewed and approved through the U.S. Food and Drug Administration (FDA). FDA-approved pharmacotherapy interventions (on-label use) are considered for NREPP review only when combined with one or more behavioral or psychosocial treatments.

2. Interventions that have been developed or evaluated with funds or other support, either partially or wholly, from organizations whose goals or activities are determined to be inconsistent with SAMHSA's mission.

Acceptance of Interventions

Submissions that meet the four minimum requirements (excluding ineligible interventions previously noted) will be considered for review. The number of interventions selected by SAMHSA for review and the timing of these reviews depend on the availability of funds and will be determined at SAMHSA's discretion. Interventions not selected for review during this fiscal year may be resubmitted during a future open submission period.

Role of the Principal

Before an intervention can be formally accepted for review and added to the Accepted for Review list on the NREPP Web site, there must be agreement upon and designation by the submitting organization of a Principal to oversee the review. The designation of the Principal role must be agreed to by those who have had a major role in the development and/or evaluation of the intervention. The Principal is typically a principal investigator who has conducted research on the intervention,

a program developer who has collaborated with an evaluator of the intervention, or an official of the organization requesting the review.

The Principal is responsible for ensuring provision of all materials and documentation to be used in the review. This includes full-text copies of articles and reports that provide evidence of significant outcomes as well as copies of dissemination materials in the format they are provided to the public (e.g., hard copies or electronic versions of manuals, training presentations, tools, quality assurance protocols, URLs for interactive Web-based resources). The Principal is required to participate in a kickoff call at the commencement of review and may be asked to answer questions about the intervention, the articles, or the intervention materials for clarification at various points throughout the review process.

At the end of the review, the Principal receives a draft intervention summary presenting the results of the review and is asked to provide corrections and comments. The results of NREPP reviews are considered public, and after having the opportunity to comment on the summary, the Principal is expected to authorize publication of the summary on the NREPP Web site. If the Principal does not provide that authorization, the intervention will be identified on the NREPP Web site as having undergone review, with a statement indicating the Principal did not authorize publication of the summary.

Instructions for Submitting an Intervention

Submissions must include (1) a letter formally requesting a review and (2) documentation demonstrating that the minimum requirements described above have been met. NREPP prefers letters of interest and supporting materials to be

submitted electronically using an online submission tool that will be made available during the open submission period. On January 2, 2014, NREPP will post a link to the online submission tool and instructions for how to obtain a username and password at <http://www.nrepp.samhsa.gov/ReviewSubmission.aspx>. Please call 1-866-436-7377 for technical assistance on the electronic submission process or to arrange for submission by hard copy or fax if electronic submission is not possible. To be eligible for consideration, a complete submission including both the letter of request and supporting documents must be received no later than 11:59 p.m. E.S.T. on February 28, 2014; materials received before January 2, 2014, will be disregarded.

FOR FURTHER INFORMATION CONTACT: Individuals who have specific questions about the information contained in this notice may write to NREPP staff at nrepp@samhsa.hhs.gov or call 1-866-436-7377.
