[Docket No. FAA–2012–1337; Airspace Docket No. 12–ASO–21]

Establishment of Class E Airspace; Boca Grande, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E Airspace at Boca Grande, FL, to accommodate a new Area Navigation (RNAV) Global Positioning System (GPS) special Standard Instrument Approach Procedure (SIAP) serving Boca Grande Heliport. This action enhances the safety and airspace management of Instrument Flight Rules (IFR) operations within the National Airspace System. Also, geographic coordinates are corrected under their proper heading.

DATES: Effective 0901 UTC, August 22, 2013. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On March 6, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to establish Class E airspace at Boca Grande, FL (78 FR 14479). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Subsequent to publication the FAA found that the heliport coordinates were incorrectly listed as point in space coordinates; and point in space coordinates were inadvertently omitted. This action makes the correction. Except for editorial changes and the changes listed above, this rule is the same as published in the NPRM.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9W dated August 8, 2012, and effective September 15, 2012, which is incorporated by reference in 14 CFR

71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 establishes Class E airspace extending upward from 700 feet above the surface at Boca Grande, FL, providing the controlled airspace required to support the new Copter RNAV (GPS) special standard instrument approach procedures for Boca Grande Heliport. Controlled airspace within a 6-mile radius of the point in space coordinates of the heliport is necessary for the safety and management of IFR operations at the heliport. Geographic coordinates for the heliport and point in space are corrected and separately listed.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes controlled airspace at Boca Grande Heliport, Boca Grande, FL.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA

Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

33 CFR Part 100

[Docket Number USCG–2013–0250]

RIN 1625–AA08

Special Local Regulations; Daytona Beach Grand Prix of the Sea, Atlantic Ocean; Daytona Beach, FL

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a special local regulation on the waters of the Atlantic Ocean east of Daytona Beach, Florida, during the Daytona Beach Grand Prix of the Sea, a series of high-speed boat races. The event is scheduled to take place on Friday through Sunday, June 14–16, 2013. Approximately 40 high-speed race boats are anticipated to participate in the races, and approximately 25 spectator vessels are expected to attend the event. This special local regulation is necessary to provide for the safety of life on navigable waters of the United States during the races. The special local regulation consists of the following two areas: a race area, where all persons and vessels, except those participating in the high-speed boat races, are prohibited from entering, transiting, anchoring, or remaining; and a buffer zone around the race area, where all persons and vessels, except those enforcing the buffer zone, are prohibited from entering, transiting, anchoring, or remaining unless authorized by the Captain of the Port Jacksonville or a designated representative.

DATES: This rule is effective from 9 a.m. on June 14, 2013, until 4 p.m. on June 16, 2013.

ADDRESSES: Documents mentioned in this preamble are part of docket USCG–2013–0250. NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the Coast Guard did not receive necessary information regarding the event with sufficient time to publish an NPRM and to receive public comments prior to the event. Any delay in the effective date of this rule would be contrary to the public interest because immediate action is needed to minimize potential danger to race boat participants, participant race craft, spectators, and the general public.

Under 5 U.S.C. 553(d)(3), for the reasons stated above, the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard's authority to establish special local regulations: 33 U.S.C. 1233. The purpose of the rule is to ensure safety of life on navigable waters of the United States during the Daytona Beach Grand Prix of the Sea.

C. Discussion of the Final Rule

On Friday through Sunday, June 14–16, 2013, Powerboat P1–USA will host the Daytona Beach Grand Prix of the Sea, a series of high-speed boat races. The event will be held on the waters of the Atlantic Ocean east of Daytona Beach, Florida. Approximately 40 high-speed power boats are anticipated to participate in the races. It is anticipated
