

G. Langseth in the Northeast Atlantic Ocean, June-July 2013,” prepared by LGL Ltd., Environmental Research Associates, on behalf of NSF and L-DEO. The EA analyzes the direct, indirect, and cumulative environmental impacts of the planned specified activities on marine mammals including those listed as threatened or endangered under the ESA. NMFS, after review and evaluation of the NSF EA for consistency with the regulations published by the Council of Environmental Quality (CEQ) and NOAA Administrative Order 216-6, Environmental Review Procedures for Implementing the National Environmental Policy Act, prepared an independent EA titled “Environmental Assessment on the Issuance of an Incidental Harassment Authorization to the Lamont-Doherty Earth Observatory to Take Marine Mammals by Harassment Incidental to a Marine Geophysical Survey in the Northeast Atlantic Ocean, June to July 2013.” After considering the EA, the information in the IHA application, Biological Opinion, and the **Federal Register** notice, as well as public comments, NMFS has determined that the issuance of the IHA is not likely to result in significant impacts on the human environment and has prepared a Finding of No Significant Impact (FONSI). An Environmental Impact Statement is not required and will not be prepared for the action.

Authorization

NMFS has issued an IHA to L-DEO for the take, by Level B harassment, of small numbers of marine mammals incidental to conducting a marine seismic survey in the northeast Atlantic Ocean, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.
