SUPPLEMENTARY INFORMATION: The Norfolk Southern Corporation, who owns and operates this drawbridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.5 to facilitate thermite welding on the rails.

Under the regular operating schedule, the Norfolk Southern #5 Railroad Bridge, mile 1.1, in Norfolk, VA, the draw must open promptly and fully for the passage of vessels when a request or signal to open is given. The draw normally is open and only closes for train crossings or periodic maintenance. The Norfolk Southern #5 Railroad Bridge, at mile 1.1, across the Elizabeth River (Eastern Branch) in Norfolk, VA, has a vertical clearance in the closed position to vessels of 6 feet above mean high water.

Under this temporary deviation, the drawbridge will be maintained in the closed to navigation position from 11 a.m. to 1 p.m. on July 8, 9, 10, 15 and 16, 2013 the bridge will operate under normal operating schedule at all other times. The bridge normally operates in the open position with several vessels transiting a week and only closes when trains transit. Emergency openings cannot be provided. There are no alternate routes for vessels transiting this section of the Elizabeth River Eastern Branch but vessels may pass before 11 a.m. and after 1 p.m.

The Elizabeth River Eastern Branch is used by a variety of vessels including military, tugs, commercial, and recreational vessels. The Coast Guard has carefully coordinated the restrictions with these waterway users. The Coast Guard will also inform additional waterway users through our Local and Broadcast Notice to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the

temporary deviation. Mariners able to pass under the bridge in the closed position may do so at any time and are advised to proceed with caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 30, 2013.
