Commission**

[Project No. 14332-000-NH]

**Historic Harrisville, Inc.; Notice of  
Availability of Environmental  
Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for exemption from licensing for the Cheshire Mills Hydroelectric Project, to be located on Nubanusit Brook, in the town of Harrisville, Cheshire County, New Hampshire, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyzes the potential environmental effects of the project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

For further information, contact Brandon Cherry at (202) 502-8328 or [brandon.cherry@ferc.gov](mailto:brandon.cherry@ferc.gov).

Dated: June 4, 2013.

[Docket No. PR13-50-000]

**Dow Intrastate Gas Company; Notice  
of Petition for Rate Approval**

Take notice that on May 31, 2013, Dow Intrastate Gas Company filed a petition for rate approval pursuant to Section 284.123(b)(2) of the Commission's regulations for approval of a new rate applicable to interruptible transportation service and to revise its Statement of Operating Conditions, as more fully detailed in the petition.

Any person desiring to participate in this rate filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5:00 p.m. Eastern Time on Friday, June 14, 2013.

Dated: June 4, 2013.

[Project No. 13642-002]

**GB Energy Park, LLC; Notice of  
Preliminary Permit Application  
Accepted for Filing and Soliciting  
Comments, Motions To Intervene, and  
Competing Applications**

On May 1, 2013, GB Energy Park, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Gordon Butte Pumped Storage Project (project) to be located near Martinsdale, Meagher County, Montana. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following:

**Upper Reservoir**

(1) A new 50-foot-high, 9,000-foot-long earthen and roller compacted concrete embankment; (2) a new 3,000-foot-long, 1,000-foot-wide, 50- to 75-foot-deep upper reservoir, with a surface area of 50 acres and a storage capacity of 4,050 acre-feet at a normal maximum surface elevation of 6,020 feet; (3) a new 25-foot-diameter, 4,000-foot-long concrete- and steel-lined horizontal tunnel conveying flows to the powerhouse; and (4) a new powerhouse adjacent to the lower reservoir containing four 100-megawatt (MW) turbine generator units having a total installed capacity of 400 MW.

**Lower Reservoir**

(1) A new 50-foot-high, 10,000-foot-long earthen and roller compacted concrete embankment; (2) a new 5,000-foot-long, 1,000-foot-wide, 50- to 75-foot-deep lower reservoir with a surface area of 80 acres and a storage capacity of 4,050 acre-feet at a normal maximum surface elevation of 4,990 feet; (3) option of three flow lines: (a) An existing canal carrying flows diverted from Cottonwood Creek by an existing
