

Intended Use: The instrument will be used to identify structure/properties relationships of polymer based solar cells or for the structural analysis of polymer/nanoparticle hybrid materials for the development of high-density storage devices, as well as to study the self-assembly of bio-polymer systems for drug-delivery system development. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: April 3, 2013.

Docket Number: 13-022. Applicant: University of Utah, 5C124 School of Medicine, Salt Lake City, UT 84132. Instrument: Electron Microscope. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument will be used to categorize tissues obtained from living organisms, cellular constructs, viruses, bacteria, and single-celled organisms, as well as particulate matter, including nanoparticles and other synthesized objects by cellular structure, morphology, and three-dimensional structure. The effects of genetic mutation, disease, and different environmental conditions on the subjects will also be studied. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: May 22, 2013.

Docket Number: 13-024. Applicant: University of Pennsylvania, 421 Curie Blvd., Biomedical Research Building, Room 1157, Perelman School of Medicine, Philadelphia, PA 19104. Instrument: Electron Microscope. Manufacturer: FEI Company, Czech Republic. Intended Use: The instrument will be used for the examination of traditional dehydrated, metal coated samples, as well as hydrated samples, and back-scattered electron detection of colloidal gold particles. Experiments will also require the identification and localization of specific macromolecules on the surface of cells or other structures, which requires a back-scattered electron detector. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: May 16, 2013.

#### Correction of Postponement of Final Determination

On June 3, 2013, the Department of Commerce ("Department") published the postponement of the final determination of the antidumping duty investigation of hardwood and decorative plywood from the People's Republic of China ("PRC").<sup>1</sup> In that notice, the Department inadvertently extended the final determination by only 50 days, whereas Department had intended to fully postpone the final by 60 days. Therefore, the Department is now correcting that notice and fully extending the final determination in accordance with sections 733(d) and 735(a)(2)(A) of the Tariff Act of 1930, as amended ("the Act") and 19 CFR 351.210(b)(2)(ii) and (e). Accordingly, we are postponing the final determination by 60 days. We are also extending the application of the provisional measures prescribed under section 733(d) of the Act and 19 CFR 351.210(e)(2) from a four month period to a six month period. In addition, because the countervailing duty investigation of hardwood and decorative plywood from the PRC has been aligned with the concurrent antidumping duty investigation under section 705(a)(1) of the Act, the time limit for completion of the final determination in the countervailing duty investigation will be the same date.<sup>2</sup> The final determination for both
