I. Background: The Longshore and Harbor Workers’ Compensation Act (LHWCA) requires covered employers to secure the payment of compensation under the Act and its extensions by purchasing insurance from a carrier authorized by the Secretary of Labor to write Longshore Act Insurance, or by becoming authorized self-insured employers (33 U.S.C. 932 et seq). Each authorized insurance carrier (or carrier seeking authorization) is required to establish annually that its Longshore obligations are fully secured either through an applicable state guaranty (or analogous) fund, a deposit of security with the Division of Longshore and Harbor Workers’ Compensation (DLHWC), or a combination of both. Similarly, each authorized self-insurer (or employer seeking authorization) is required to fully secure its Longshore Act obligations by depositing security with DLHWC. These requirements are designed to assure the prompt and continued payment of compensation and other benefits by the responsible carrier or self-insurer to injured workers and their survivors. Forms LS–276, Application for Security Deposit Determination; LS–275–IC, Agreement and Undertaking (Insurance Carrier); and LS–275–SI, Agreement and Undertaking (Self-insured Employer) are used to cover the submission of information by insurance carriers and self-insured employers regarding their ability to meet their financial obligations under the Longshore Act and its extensions. This information collection is currently approved for use through November 30, 2013.

II. Review Focus: The Department of Labor is particularly interested in comments which:

* evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

* evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

* enhance the quality, utility and clarity of the information to be collected; and

* minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The Department of Labor seeks the approval for the extension of this currently-approved information collection in order to carry out its responsibility to ensure that a carrier’s LHWCA obligations are sufficiently secured and, if necessary, to deposit security in an amount set by OWCP. This procedure will ensure the prompt and continued payments of compensation and medical benefits to injured workers and help protect the Longshore special funds assets from consequences flowing from insurance carriers’ insolvencies.

SUPPLEMENTARY INFORMATION

I. Background: The Federal Mine Safety and Health Act of 1977, as amended (30 U.S.C. 901) and 20 CFR 725.535, require that DOL Black Lung benefit payments to a beneficiary for any month be reduced by any other payments of state or federal benefits for workers’ compensation due to pneumoconiosis. To ensure compliance with this mandate, DCMWC must collect information regarding the status of any state or Federal workers’ compensation claim, including dates of payments, weekly or lump sum amounts paid, and other fees or expenses paid out for this award, such as attorney fees and related expenses associated with pneumoconiosis. Form CM–905 is used to request the amount of those workers’ compensation benefits. This information collection is currently approved for use through October 31, 2013.

II. Review Focus: The Department of Labor is particularly interested in comments which:

* evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including...
whether the information will have practical utility;
* evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

Abstract: Section 183 of the Railway Labor Act, 45 U.S.C., 183, provides that the parties to the labor-management disputes in the airline industry must have a procedure for the resolution of disputes involving the interpretation or application of provisions of the collective bargaining agreement. The Railway Labor Act mentions system board of adjustment or arbitration boards as the mechanism for resolution and is silent as to how the neutral arbitrator is to be selected if the parties are unable to agree on an individual. The National Mediation Board provides panels of arbitrators to help the parties in their selection of an arbitrator.

This form is necessary to assist the parties in this process. The parties invoke the process through the submission of this form. The brief information is necessary for the NMB to perform this important function.
