

done randomly and staggered based upon USAC capacity.

12. USAC will compile the responses and provide each ETC with a record of the subscriber recertification. USAC will provide each ETC with a list of subscribers that did not recertify, and therefore must be de-enrolled, and provide ETCs with sufficient information to compile their FCC Form 555 at least 30 days before the annual January 31 due date. ETCs must de-enroll subscribers within five days of receiving notice that the subscriber has failed to recertify. As noted above, all active subscribers enrolled in Lifeline prior to 2013 and for which the ETC sought reimbursement on its February 2013 Form 497 are subject to recertification in 2013.

13. We conclude that good cause exists to make the procedures established in this Public Notice effective immediately upon publication in the **Federal Register**, pursuant to section 553(d)(3) of the Administrative Procedure Act. We find good cause based on the need for the procedures to be in place and available to ETCs in time for ETCs to be able to submit their elections to USAC, and provide USAC with a subscriber list in time to comply with the procedures we adopt here.

III. Final Regulatory Flexibility Certification

14. The Regulatory Flexibility Act ("RFA") requires that agencies prepare a regulatory flexibility analysis for notice-and-comment rulemaking proceedings, unless the agency certifies that "the rule will not have a significant economic impact on a substantial number of small entities. The RFA generally defines "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction." In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act. A small business concern is one which (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

15. We hereby certify that the clarification and procedures announced in this Public Notice will not have a significant economic impact on a substantial number of small entities. In this Public Notice, the Commission eases the regulatory compliance burden on ETCs by allowing for greater flexibility to recertify their subscribers and by outlining the procedures for ETCs to have USAC perform

recertifications on their behalf. This Public Notice does not modify any of our reporting requirements. The Commission will send a copy of this Public Notice, including this certification, to the Chief Counsel for Advocacy of the SBA. In addition, the Public Notice (or a summary thereof) and certification will be published in the **Federal Register**.

Federal Communications Commission.

Kimberly A. Scardino,

Division Chief, Telecommunications Access Policy Division Wireline Competition Bureau.
