Public Land Order No. 7815; Extension of Public Land Order No. 6997; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order extends the withdrawal created by Public Land Order No. 6997, as corrected, for an additional 20-year period. The extension is necessary to continue the protection of the United States Fish and Wildlife Service’s Charles M. Russell National Wildlife Refuge, which would otherwise expire on September 27, 2013.

DATES: As of September 28, 2013.

FOR FURTHER INFORMATION CONTACT: Danielle Kepford, U.S. Fish and Wildlife Service, P.O. Box 110, 406–538–8706, Danielle.Kepford@fws.gov, or Debbie Sorg, Bureau of Land Management, 5001 Southgate Drive, Billings, Montana 59101–4669, 406–896–5045, dsorg@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 (TDD) to leave a message or question with either of the above individual. You will receive a reply during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with either of the above individuals. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The purpose for which the withdrawal was first made requires this extension to continue protection of the Charles M. Russell National Wildlife Refuge. The withdrawal extended by this order will expire on September 27, 2033, unless as a result of a review conducted prior to the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary of the Interior determines that the withdrawal shall be further extended.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land and Policy Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

Public Land Order No. 6997 (58 FR 50518–21 (1993)), as corrected (58 FR 58593 (1993)), which withdrew 891,422.36 acres of public mineral estate from location and entry under the United States mining laws (30 U.S.C. Ch. 2), but not from leasing under the mineral leasing laws, to protect the Charles M. Russell National Wildlife Refuge, is hereby extended for an additional 20-year period until September 27, 2033.

Dated: June 4, 2013.

Rhea S. Suh, Assistant Secretary—Policy, Management and Budget.

Notice of Intent To Prepare a Resource Management Plan for the Central Yukon Planning Area Alaska and Associated Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), the Federal Land Policy and Management Act of 1976, as amended, and the Alaska National Lands Interest Conservation Act of 1980 (ANILCA), as amended, the Bureau of Land Management (BLM) Central Yukon Field Office, Fairbanks, Alaska, intends to prepare a Resource Management Plan (RMP) with an associated Environmental Impact Statement (EIS) for the Central Yukon Planning Area. This notice announces the beginning of the scoping process to solicit public comments and identify issues. The RMP will replace the existing Utility Corridor RMP, Central Yukon RMP, and part of the Southwest Management Framework Plan. Additionally, the RMP will cover lands in the Fairbanks North Star Borough that are currently not included in any management plan.

DATES: This notice initiates the public scoping process for the RMP with the associated EIS. Comments on issues may be submitted in writing until December 11, 2013. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local media, newspapers, and the BLM-Alaska Web site at: www.blm.gov/ak. In order to be included in the Draft RMP/EIS scoping report, all comments must be received prior to the close of the 180-day scoping period or 15 days after the last public meeting, whichever is later. We will provide additional opportunities for public participation upon publication of the Draft RMP/EIS.

ADDRESSES: You may submit comments on issues, planning criteria, and management questions and concerns related to the Central Yukon RMP by any of the following methods:

• In person at public scoping meetings in communities within the planning area. The BLM will announce the meeting dates, times and specific locations through news releases and on the BLM Web site at www.blm.gov/ak:
  • Web site: www.blm.gov/ak;
  • Email: CentralYukon@blm.gov;
  • Fax: 907–474–2282;
  • Mail: Attn: Central Yukon Field Office, 1150 University Avenue, Fairbanks, AK 99709.

Documents pertinent to this proposal may be examined at the Fairbanks District Office; address: 1150 University Avenue, Fairbanks, AK 99709.

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to our mailing list, contact Jeannie Cole, Planning and Environmental Coordinator, telephone 907–474–2200; address: 1150 University Ave., Fairbanks, AK, 99709; email j05cole@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Central Yukon Field Office, Fairbanks, Alaska, intends to prepare a RMP with an associated EIS for the Central Yukon Planning Area. The BLM is announcing the beginning of the scoping process and seeking public input on issues and planning criteria. The planning area is located in central and northern Alaska and encompasses approximately 16 million acres of public land. The purpose of the public scoping process is to identify relevant issues that will
influence the scope of the environmental analysis, including alternatives, and guide the planning process. Preliminary issues for the planning area identified by BLM personnel, Federal, State, and local agencies, and other stakeholders include: Increasing demands for and impacts from recreational use along the Dalton Highway; access and off-highway vehicle use, particularly along the Dalton Highway; increasing demand for mining; impacts from mining on fish and aquatic habitats; opening lands to new mineral entry; disposal of mineral material along the Dalton Highway; allowing the State of Alaska to select lands within the Utility Corridor for conveyance to the state; identification of Areas of Critical Environmental Concern (ACEC); potential additions to the Wild and Scenic Rivers system; management of wilderness characteristics; protection of resources important to maintaining a subsistence lifestyle; the importance of subsistence to local economies and traditional lifestyles; and impacts from climate change. Preliminary planning criteria include:

1. The primary purpose of the lands withdrawn by Public Land Order 5150 is the transportation of energy resources; therefore, the BLM will avoid proposing actions or activities with potential adverse impacts to existing and future energy transportation systems on these lands located within the corridor;

2. The BLM Central Yukon Field Office will encourage opportunities for public participation throughout the planning process;

3. The BLM will recognize and protect valid existing rights;

4. The BLM will consider subsistence uses and minimize adverse impacts in accordance with Section 810 of the ANILCA;

5. The BLM will work cooperatively with State and Federal agencies, Native corporations, Tribes, and municipal governments;

6. The BLM will consider plans and policies of adjacent conservation system units, land owners, and local governments;

7. The BLM will consider Department of the Interior guidance, Alaska Department of Fish and Game (ADF&G) objectives, and Federal Subsistence Board requirements and mandates—in decisions related to wildlife management;

8. The RMP will be consistent with the Bureau’s H–1601–1 Land Use Planning Handbook, Appendix C. Program-Specific Resource-Specific Decision Guidance and applicable BLM manuals and handbooks;

9. The plan will be consistent with the standards and guidance set forth in the Federal Land Policy and Management Act, NEPA, Council Environmental Quality, Historic Preservation Act, Wild and Scenic Rivers Act, Migratory Bird Treaty Act, ANILCA, and other Federal laws, regulations, and policies as required;

10. The plan will be consistent with BLM-Alaska Land Health Standards;

11. The BLM will complete designs for Off-Highway Vehicles for all BLM-managed lands within the planning area according to the regulations found in 43 CFR part 8342;

12. Within the Utility Corridor development nodes, the BLM will assess areas designated by BLM in the Utility Corridor RMP/ROD (1991) for future development (i.e., visitor facilities, restrooms, rest stops, etc.) regarding the location, size, boundaries, and appropriate uses, their long-range development, state or federal management, and affects on adjacent and nearby lands;

13. The plan will address public access needs;

14. The BLM will consider current and potentially new special designations, such as ACECs and Research Natural Areas (RNAs), using the criteria found in 43 CFR 1610.7–2 and 43 CFR part 8223;

15. Review and classification of waterways as eligible for inclusion in the National Wild and Scenic River System will be consistent with the guidance in BLM’s 8351 Manual—Wild and Scenic Rivers;

16. The BLM will incorporate Environmental Justice (EJ) considerations in land use planning alternatives to adequately respond to EJ issues facing minority populations, low income communities, and Tribes living near public lands and using public land resources;

17. The plan will assess all BLM-managed lands in the planning area for wilderness characteristics using criteria established by BLM Manual 6310. The RMP will examine options for managing lands with wilderness characteristics and determine the most appropriate land use allocations for these lands. Considering wilderness characteristics in the land use planning process may result in several outcomes, including, but not limited to: (1) Emphasizing other multiple uses as a priority over protecting wilderness characteristics; (2) emphasizing other multiple uses while applying management restrictions (conditional use mitigation measures) to reduce impacts to wilderness characteristics; and (3) the protection of wilderness characteristics as a priority over other uses; and

18. The BLM will manage the Central Arctic Management Area Wilderness Study Area consistent with BLM Manual 6330—Management of BLM Wilderness Study Areas, and ANILCA, until Congress acts on the wilderness recommendation.

You may submit comments on issues; planning criteria; and, management questions and concerns in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the ADDRESSES section above. In order to be included in the Draft RMP/EIS scoping report, all comments must be received prior to the close of the 180-day scoping period or 15 days after the last public meeting, whichever is later. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The BLM will evaluate identified issues to address in the plan, and will place them into one of three categories: 1. Issues to be resolved in the plan; 2. Issues to be resolved through policy or administrative action; or, 3. Issues beyond the scope of this plan.

The BLM will provide an explanation in the Draft RMP/Draft EIS as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the plan. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use the NEPA public participation requirements to assist the agency in satisfying the public involvement requirements under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 802.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA.

The BLM will consult with Federally Recognized Indian tribes on a government-to-government basis in accordance with Executive Order 13175.
and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

The BLM will use an interdisciplinary approach to develop the plan in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the planning process: minerals and geology, outdoor recreation, archeology, wildlife, fisheries, lands and reality, hydrology, soils, vegetation, air quality, subsistence, and socioeconomics.

Authority: 40 CFR 1501.7, 43 CFR 1610.2.

Ted A. Murphy,
Acting State Director.

Planning Area Revision, SD

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) has prepared a Draft Resource Management Plan (RMP) and Draft Environmental Impact Statement (EIS) for the South Dakota Field Office and by this notice is announcing the opening of the comment period.

DATES: To ensure that comments will be considered, the BLM must receive written comments on the draft RMP/EIS within 90 days following the date the Environmental Protection Agency publishes its notice of the draft RMP/EIS in the Federal Register. The BLM will announce future meetings or hearings and any other public participation activities at least 15 days in advance through public notices, media releases, and/or mailings.

ADDRESS: You may submit comments related to the South Dakota Field Office draft RMP/EIS by any of the following methods:

- Email: BLM MT South Dakota RMP@blm.gov.
- Fax: 605–892–7015.
- South Dakota Field Office, Attn: RMP Project Manager, 310 Roundup Street, Belle Fourche, SD 57717.

Copies of the draft RMP/EIS are available at the South Dakota Field Office at the address above or may be viewed at http://www.blm.gov/mt/st/en/fo/south dakota_field/rmp.html.

FOR FURTHER INFORMATION CONTACT:

Mitch Iverson, RMP Project Manager at 605–892–7008; or Marian Atkins, BLM South Dakota Field Manager, at 605–892–7000, at 310 Roundup Street, Belle Fourche, SD 57717, or via email BLM MT South Dakota RMP@blm.gov.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individuals during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individuals. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION:

The planning area includes lands within the BLM South Dakota Field Office administrative boundaries. The planning area consists of BLM-administered surface lands, totaling 274,239 acres, and BLM-administered Federal mineral estate, totaling 1,715,677 acres. Over 98 percent of the BLM-administered surface and Federal mineral estate in the decision area is located in western South Dakota. Counties with substantial amounts of BLM-administered surface or mineral estate (over 1 percent of the county land base) include Butte, Custer, Fall River, Haakon, Harding, Lawrence, Pennington, Perkins, and Stanley counties in western South Dakota. Other counties with small amounts of BLM-administered surface or federal minerals (less than 1 percent of the county land base) include Bennett, Bon Homme, Brule, Campbell, Charles Mix, Clark, Clay, Corson, Dewey, Edmunds, Faulk, Gregory, Hand, Hughes, Hyde, Jackson, Jones, Lyman, Marshall, McPherson, Mellette, Potter, Sully, Tripp, Walworth, Yankton, and Ziebach counties in South Dakota. The RMP will fulfill the needs and obligations set forth by NEPA, FLPMA, and BLM management policies.

An updated inventory of lands with wilderness characteristics was completed for the RMP planning area, and data from the inventory was analyzed in the Draft RMP/EIS. The revised RMP will replace the South Dakota RMP of 1986, as amended, and provide the South Dakota Field Office with an updated framework in which to administer BLM public lands.

The formal scoping period began with the publication of the Notice of Intent (NOI) in the Federal Register on July 19, 2007 (72 FR 39638). From August through October 2007, nine scoping meetings were held across the planning area. In addition to the nine scoping meetings, four open house meetings were held to address the concerns of Native American tribes. During scoping, the BLM requested public input to identify resource issues and concerns, management alternatives, or other ideas to help in determining future land use decisions for the planning area. Initially, the Federal Register NOI announced scoping for both North Dakota and South Dakota RMP revisions; however, based on the diverse planning issues and other management considerations, the South Dakota RMP revision continued ahead, and an RMP revision specific to North Dakota BLM will be addressed at a later date.

The issues raised during scoping included energy development, vegetation management, wildlife habitat, special status species management, Greater Sage-Grouse, travel, access, commercial uses, land tenure adjustments, visual resource management, and climate change. The South Dakota draft RMP/EIS addresses the conservation needs of the Greater Sage-Grouse as part of the joint BLM–U.S. Forest Service national effort to sustain the species and its habitat through multiple land management plans across 10 western states. The BLM invited local, State, Federal, and tribal representatives to participate as cooperating agencies on the South Dakota RMP/EIS. The BLM invited these entities to participate because they have jurisdiction by law or because they could offer special expertise. Eleven cooperating-agency meetings were held from 2008 to 2012. These meetings focused on goals, issues, and the development of management alternatives.

The draft RMP/EIS includes a range of management actions within four management alternatives, including the No Action Alternative. These alternatives are designed to address the goals, management challenges, and issues raised during scoping. The four alternatives are:
