[Investigation No. 337-TA-830]

Certain Dimmable Compact Fluorescent Lamps and Products Containing Same; Termination as to Three Respondents on the Basis of Settlement; Decision to Review an Initial Determination Finding No Violation of Section 337; Schedule for Filing Written Submissions

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to terminate the investigation as to three respondents on the basis of settlement. The Commission has also determined to review in part the final initial determination (“ID”) issued by the presiding administrative law judge (“ALJ”) on February 27, 2013, finding no violation of section 337 of the Tariff Act of 1930 in this investigation.

General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>.

The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on February 27, 2012, based on a complaint filed by Andrzej Bobel and Neptun Light, Inc., both of Lake Forest,

Illinois (collectively, “Neptun”). 77 FR 11587 (Feb. 27, 2012). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended 19 U.S.C. 1337, by reason of the infringement of certain claims of United States Patent Nos. 5,434,480 (“the ‘480 patent”) and 8,035,318 (“the ‘318 patent”). The complaint named numerous respondents, many of whom have been terminated from the investigation on the basis of settlement agreement, consent order, or withdrawal of the complaint. The remaining respondents are Technical Consumer Products, Inc. of Aurora, Ohio; Shanghai Qiangling Electronics Co., Ltd. of Shanghai, China; Zhejiang Qiang Ling Electronic Co. Ltd. of Zhenjiang, China (collectively, “TCP”); U Lighting America Inc. of San Jose, California (“ULA”); and Golden U Lighting Manufacturing (Shenzhen) of Shenzhen, China (“Golden U”). Claim 9 of the ‘480 patent is asserted against ULA and Golden U, and claims 1 and 12 of the ‘318 patent are asserted against TCP.

On February 27, 2013, the ALJ issued his final Initial Determination (“ID”). The ID found no violation of section 337 on the basis of Neptun’s failure to satisfy the economic prong of the domestic industry requirement of section 337. The ALJ also found that respondent TCP’s accused products do not infringe the asserted claims of the ‘318 patent.

On March 12, 2013, Neptun filed a petition for review of the ID; TCP and ULA each filed a contingent petition for review of the ID. On March 20, 2013, Neptun opposed TCP’s and ULA’s petitions, and TCP and ULA each opposed Neptun’s petition. On April 3, 2013, the Commission extended the whether-to-review deadline and the target date by approximately six weeks. Notice (Apr. 3, 2013).

On June 10, 2013, Neptun and TCP filed an unopposed joint motion to terminate the investigation as to TCP on the basis of a settlement agreement between Neptun and TCP. The Commission finds that it is in the public interest to terminate the investigation as to TCP on the basis of settlement, and the Commission grants the joint motion.

Turning to the petitions for review of the ID, having examined the record of this investigation, including the ALJ’s final ID, the petitions for review, and the responses thereto, the Commission has determined to review the ALJ’s finding that Neptun did not satisfy the domestic industry requirement. The Commission has also determined to review the ALJ’s claim construction of “integrated into” in claim 9 of the ‘480 patent, as well as the ALJ’s finding of

infringement insofar as the finding is based upon that construction. The Commission has determined not to review the remainder of the ID.

In connection with the Commission’s review, the parties are asked to respond only to the questions enumerated below. For all other matters under review, the Commission finds the extensive briefing before the ALJ and the petitions for review to be sufficient. Each party should address questions 1–4 in its opening brief, and may respond to each other’s arguments in reply. Neptun should address question 5 in its opening brief, with ULA addressing question 5 in ULA’s reply brief.

(1) What is the plain and ordinary meaning of “integrated into” (include citations to the record where you made such arguments to the ALJ)? In the context of an electronic circuit, does the construction of “integrated into” as “in some way connected to” render superfluous that claim term, including the word “into”?

(2) Whether the specification of the ‘480 patent (including the passages cited in ULA’s petition for review at pages 26–32) supports a construction of “integrated into” in which the boosting circuit uses downstream rectified current to perform boosting. If not, explain whether you contend that the specification limits the term “integrated into” to something other than its plain and ordinary meaning.

(3) Whether the prosecution history of the ‘480 patent permits a construction of “integrated into” in which the boosting circuit is downstream from the rectifier, and where the rectifier itself does not perform boosting.

(4) Whether the boosting circuit in ULA’s accused products uses downstream rectified current to perform boosting, and whether ULA’s products meet the “integrated into” claim limitation, literally or under the doctrine of equivalents.

(5) Which of complainants’ asserted expenses constitute investments that fall under 19 U.S.C. 1337(a)(3)(C), such as investments in engineering, research and development, or licensing? Please identify and provide a reasonable estimate, based on the evidence of record, of the portion of these expenses that are associated with the exploitation of the ‘480 patent. Please explain, qualitatively, how these expenses—and the underlying activities that these expenses reflect—relate to exploitation of the ‘480 patent.

In connection with the final disposition of this investigation, the Commission may (1) issue an order that could result in the exclusion of the subject articles from entry into the
