ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

Triforine, Pesticide Tolerances; Technical Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting amendments.

SUMMARY: EPA issued a final rule in the Federal Register of May 29, 2013, concerning tolerances for triforine on blueberry and tomato. This document corrects a typographical error to the section number.

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

The Agency included in the final rule a list of those who may be potentially affected by this action.

II. What does this technical correction do?

EPA is correcting the CFR section number assigned to the pesticide tolerance for triforine, which was published in the Federal Register of May 29, 2013 (78 FR 32146).

Specifically, EPA is changing the section number from § 180.1321 to § 180.673 so that the pesticide tolerance can be correctly placed in 40 CFR part 180, subpart C.

III. Why is this correction issued as a final rule?

Section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)(3)(B)) provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making this technical correction final without prior proposal and opportunity for comment, because this is merely a change in section number and is not a substantive change. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

IV. Do any of the statutory and Executive Order reviews apply to this action?

A discussion of statutory and Executive Order Review was included in the original document published on May 29, 2013.

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 et seq.), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 5
[ET Docket No. 10–236 and 06–155; FCC 13–76]

Radio Experimentation and Market Trials—Streamlining Rules

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document the Commission modifies on its own motion the rules adopted in this proceeding regarding transfer and assignment of experimental licenses of its rules. Upon reflection, the Commission found it in the public interest to specifically prohibit the transfer of program, medical testing, and compliance testing experimental radio licenses, while continuing to permit conventional experimental authorizations to be transferred with the written approval of the Commission. There is an inconsistency between the adopted rule and this prohibition, which is resolved by clearly prohibiting such transfers. In making this rule modification, it is noted that the rules provide options for entities to obtain an experimental license to ensure continuation of all experiments without lapse including those being conducted under a program, medical testing, and compliance testing license. Thus, this action will result in no harm to any qualified license applicant or licensee.

DATES: This rule requires approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (PRA), and will become effective after the Commission publishes a notice in the Federal Register announcing such approval and the relevant effective date.
