AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to hold public hearings.

SUMMARY: On February 5, 2013, EPA proposed a Best Available Retrofit Technology (BART) determination for emissions of oxides of nitrogen (NOx) from the Navajo Generating Station (NGS), located on the Navajo Nation. EPA provided a three-month period for public comments, to close on May 6, 2013. The Navajo Nation, Gila River Indian Community, and other affected stakeholders requested a 90-day extension of the comment period to allow time for stakeholders to develop an alternative to EPA’s proposed BART determination that achieves a greater reasonable progress. On March 19, 2013, EPA extended the close of the public comment period to August 5, 2013. EPA is providing notice of our intent to hold five public hearings to accept written comments.

DATES: EPA will announce dates and locations for the public hearings at a later time in the Federal Register, on our Web site, and in the docket for this proposed rulemaking.1 Comments on the proposed BART determination for NGS must be postmarked no later than August 5, 2013.

ADDRESSES: The public hearings will be held at various locations in Indian country and in the state of Arizona. Please see the section on SUPPLEMENTARY INFORMATION for more details.
