

second sentence of the **SUMMARY** and the title of contact person was incorrect. This document corrects those errors.

In the first column, second sentence of the **SUMMARY**, add the word “advanced” before “notice of proposed rulemaking,” and in the second column, **FOR FURTHER INFORMATION CONTACT**, correct the title by removing “Executive Director, Center for Veterans Enterprise (00VE)” and adding, in its place, “Executive Director of the Office of Small and Disadvantaged Business Utilization (00SB)”.

Dated: June 14, 2013.

William F. Russo,

Deputy Director, Office of Regulation Policy and Management, Office of the General Counsel, Department of Veterans Affairs.

Approval of Air Quality Implementation Plans; Navajo Nation; Regional Haze Requirements for Navajo Generating Station; Notice of Intent To Hold Public Hearings

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to hold public hearings.

SUMMARY: On February 5, 2013, EPA proposed a Best Available Retrofit Technology (BART) determination for emissions of oxides of nitrogen (NO_x) from the Navajo Generating Station (NGS), located on the Navajo Nation. EPA provided a three-month period for public comments, to close on May 6, 2013. The Navajo Nation, Gila River Indian Community, and other affected stakeholders requested a 90-day extension of the comment period to allow time for stakeholders to develop an alternative to EPA’s proposed BART determination that achieves greater reasonable progress. On March 19, 2013, EPA extended the close of the public comment period to August 5, 2013. EPA is providing notice of our intent to hold five public hearings to accept written and oral comments on the proposed BART determination for NGS.

DATES: EPA will announce dates and locations for the public hearings at a later time in the **Federal Register**, on our Web site, and in the docket for this

proposed rulemaking.¹ Comments on the proposed BART determination for NGS must be postmarked no later than August 5, 2013.

ADDRESSES: The public hearings will be held at various locations in Indian country and in the state of Arizona. Please see the section on **SUPPLEMENTARY INFORMATION** for more details.

FOR FURTHER INFORMATION CONTACT: Anita Lee, EPA Region 9, (415) 972–3958, r9ngsbart@epa.gov.

SUPPLEMENTARY INFORMATION: EPA intends to hold public hearings at one location each on the Navajo Reservation, on the Hopi Reservation, and in Page, Phoenix, and Tucson, Arizona. These hearings will provide interested parties the opportunity to present facts, views, or arguments concerning the proposed rule requiring NGS to meet emission limits for NO_x, required under the BART provision of the Regional Haze Rule, in order to reduce visibility impairment resulting from NGS at 11 National Parks and Wilderness Areas.

Written statements and supporting information submitted during the comment period will be considered with the same weight as any oral comments and supporting information presented at the public hearing. Written comments must be postmarked on or before the last day of the comment period, August 5, 2013.

If you are unable to attend the hearing but wish to submit comments on the proposed rule, you may submit comments, identified by docket number EPA–R09–OAR–2013–0009, by one of the following methods:

(1) *Federal eRulemaking Portal:* www.regulations.gov. Follow the on-line instructions.

(2) *Email:* r9ngsbart@epa.gov.

(3) *Mail or deliver:* Anita Lee (Air-2), U.S. Environmental Protection Agency Region 9, 75 Hawthorne Street, San Francisco, CA 94105–3901.

For more detailed instructions concerning how to submit comments on this proposed rule, and for more information on our proposed rule, please see the notice of proposed rulemaking, published in the **Federal Register** on February 5, 2013 (78 FR 8274).

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Philadelphia County Reasonably Available Control Technology Under the 1997 8-Hour Ozone National Ambient Air Quality Standard; Withdrawal and New Issuance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; withdrawal and new issuance.

SUMMARY: On August 26, 2008, EPA published a proposed rule to approve a revision to the Commonwealth of Pennsylvania (Pennsylvania) State Implementation Plan (SIP) submitted by the Pennsylvania Department of Environmental Protection (PADEP) on behalf of Philadelphia Air Management Services (AMS). The SIP revision, submitted to EPA on September 29, 2006 (the 2006 SIP revision), consists of a demonstration that Philadelphia County is meeting the requirements of reasonably available control technology (RACT) of the Clean Air Act (CAA) for nitrogen oxides (NO_x) and volatile organic compounds (VOC) under the 1997 8-hour ozone national ambient air quality standard (NAAQS). EPA has determined that it cannot proceed with the final approval of the 2006 SIP revision. In light of the decision of the United States Court of Appeals for the District of Columbia (the Court) regarding EPA’s Phase 2 Ozone Implementation Rule, EPA cannot approve that compliance with a cap-and-trade program satisfies the NO_x RACT requirement for electric generating units (EGUs) in Philadelphia County, as presumed in the 2006 SIP revision. In addition, upon further review, EPA has determined that the 2006 SIP revision does not adequately address the RACT requirements under the 1997 8-hour ozone NAAQS for the major sources of VOC and NO_x for which EPA has previously approved source-specific RACT determinations under the 1-hour ozone NAAQS. Therefore, EPA is withdrawing its August 26, 2008 proposed rule to
