scientific data, APHIS has reached a finding of no significant impact with regard to the preferred alternative identified in the EA.

**Determination**

Based on APHIS’ analysis of field and laboratory data submitted by Pioneer, references provided in the petition, peer-reviewed publications, information analyzed in the EA, the PPRA, comments provided by the public, and information provided in APHIS’ response to those public comments, APHIS has determined that Pioneer’s maize event 4114 is unlikely to pose a plant pest risk and therefore is no longer subject to our regulations governing the introduction of certain genetically engineered organisms.

Copies of the signed determination document, as well as copies of the petition, PPRA, EA, finding of no significant impact, and response to comments, are available as indicated in the **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** sections of this notice.

**SUPPLEMENTARY INFORMATION:**

**Background**

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The CCRVDF is responsible for determining priorities for the consideration of residues of veterinary drugs in foods, recommending maximum levels of such substances: developing codes of practice as may be required, and considering methods of sampling and analysis for the determination of veterinary drug residues in foods.

The Committee is hosted by the United States of America.

**Issues To Be Discussed at the Public Meeting**

The following items on the Agenda for the 21st Session of the CCRVDF will be discussed during the public meeting:

- Matters referred by the Codex Alimentarius Commission and other Codex Committees and Task Forces
- Matters arising from FAO/WHO and from the Joint FAO/WHO Expert Committee on Food Additives (JECFA)
- Report on World Organization for Animal Health (OIE) activities, including the harmonization of technical requirements for registration of veterinary medicinal products (VICH)
- Draft Maximum Residue Limits (MRLs) for veterinary drugs (at Step 6)
- Proposed draft MRLs for veterinary drugs (at Step 4)
- Risk Management

Recommendations for Residues of Veterinary Drugs for which no ADI and/or MRLs has been recommended by JECFA due to Specific Human Health Concerns

- Proposed draft guidelines on performance characteristics for multi-residue methods
- Risk Analysis Policy on Extrapolation of MRLs of Veterinary Drugs to Additional Species and Tissues
- Proposed “concern form” for the CCRVDF (format and policy procedure for its use)
- Draft priority list of veterinary drugs requiring evaluation or re-evaluation by JECFA
- Database on countries’ needs for MRLs
- Discussion paper on Guidelines on the Establishment of MRLs or other Limits in Honey
- Other business and future work

Each issue listed will be fully described in documents distributed, or to be distributed, by the Secretariat prior to the Meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).
