SAMHSA supports nationwide THMs every other year. Collecting data on each round of THMs, and using this information to inform policy and measure impact, supports SAMHSA's strategic initiative number 1: Prevention of substance abuse and mental illness. A specific goal under this initiative is to prevent or reduce the consequences of underage drinking and adult problem drinking; a specific objective is to establish the prevention of underage drinking as a priority issue for states, territories, tribal entities, colleges and universities, and communities.

SAMHSA will use the information collected to document the implementation efforts of this nationwide initiative, determine if the federally sponsored THMs lead to additional activities within the community that are aimed at preventing and reducing underage drinking, identify what these activities may possibly include, and help plan for future rounds of THMs. SAMHSA intends to post online a summary document of each round of THMs and present findings at national conferences attended by community-based organizations that have hosted THMs and might host future events. Similarly, SAMHSA plans to share findings with the Interagency Coordinating Committee on the Prevention of Underage Drinking: Agencies within this committee encourage their grantees to participate as event hosts. Additionally, the information collected will support performance measurement for SAMHSA programs under the Government Performance Results Act.
