

Health Inspection Service (APHIS) regulates the importation of fruits and vegetables from certain parts of the world as provided in "Subpart—Fruits and Vegetables" (7 CFR 319.56 through 319.56–58).

In accordance with these regulations, APHIS allows the importation of shepherd's purse with roots from the Republic of Korea into the United States under certain conditions to prevent the introduction of plant pests into the United States. As a condition of entry, fresh shepherd's purse must be produced in accordance with a systems approach that includes requirements for importation of commercial consignments, pest-free place of production, and inspection for quarantine pests by the national plan protection organization (NPPO) of the Republic of Korea. These conditions involve certain information collection activities, including sampling, issuance of a phytosanitary certificate, recordkeeping, and production site registration.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.54 hours per response.

Respondents: Importers of fruits and vegetables, the NPPO of the Republic of Korea.

Estimated annual number of respondents: 54.

Estimated annual number of responses per respondent: 5.62.

Estimated annual number of responses: 304.

Estimated total annual burden on respondents: 163 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of June 2013.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of

information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northwest Region Federal Fisheries Permits.

OMB Control Number: 0648–0203.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 586.

Average Hours per Response: Limited entry permit (LEP) renewal, 20 minutes; LEP transfer, 30 minutes; ownership interest form, 10 minutes; Exempted Fishery Permit (EFP) proposal, 32 hours; pre-season plan, 16 hours; data reports, 2 hours; summary reports, 24 hours.

Burden Hours: 983.

Needs and Uses: This request is for a revision and extension of a currently approved information collection.

The Magnuson-Stevens Act (16 U.S.C. 1801) provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in Exclusive Economic Zone (3–200 miles) of the United States (U.S.). NOAA Fisheries, Northwest Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan. The regulations implementing the Pacific Groundfish Fishery require that those individuals participating in the limited entry fishery have a valid limited entry permit. Participation in the fishery and access to a limited entry permit has been restricted to control the overall harvest capacity.

NOAA Fisheries seeks comment on the extension of permit information collections required for: (1) Renewal and transfer of Pacific Coast Groundfish limited entry permits; (2) implementation of certain provisions of the sablefish permit stacking program as provided for at 50 CFR 660.231 and 660.25; and (3) issuing and fulfilling the terms and conditions of certain exempted fishing permits (EFPs).

Revisions: (1) Addition of a mandatory question to the renewal form to determine if a permit owner registered to a permit is considered a small business as defined by the Small Business Act. This information assists regional staff in preparing initial and final regulatory flexibility analyses required as part of various rulemakings. (2) Certification statement on the ownership interest, transfer and renewal forms will include a clause that the individual making the certification

(signing the form) is authorized to do so, and make them consistent with other certification statements on other forms.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, semi-annually, monthly and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer:

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Survey of Coastal Managers to Assess Needs for Ecological Forecasts.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 100.

Average Hours per Response: 20 minutes.

Burden Hours: 33.

Needs and Uses: This request is for a new survey of coastal managers to determine their needs and potential uses for ecological forecasts or scenarios. Coastal managers would be staff from state agencies who deal with issues such as coastal water quality and habitat management. The survey will be conducted under a cooperative agreement between the NOAA National

Centers for Coastal Ocean Science (NCCOS) and HDR, Inc., an environmental consulting firm. NOAA has a long history of conducting operational modeling and forecasting, mostly in the National Weather Service for weather and climate and the National Ocean Service for tides and currents. Expanding this capacity to include forecasting of ecological trends and conditions can be critical to many coastal management applications. This survey will help to assess coastal managers' needs for ecological forecasts and scenarios, and how such forecasts may be used in management contexts.

Affected Public: State, local or tribal governments, not-for-profit institutions.

Frequency: One time.

Respondent's Obligation: Voluntary.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau's Demonstration of Administrative Records Improving Surveys (DARIS) research project began in 2006 during the redesign of the Survey of Income and Program Participation (SIPP). The purpose of DARIS was to analyze direct and indirect uses of administrative data to enhance survey data. DARIS builds upon ten years of administrative data research that has demonstrated its value to State and Federal Agencies. Projects including the Medicaid Undercount Project, Earned Income Participation Rate Project, and research by the Chapin Hall Center at the University of Chicago have compared survey and program data. The Census Bureau benefits from these projects and the DARIS program by improving survey frames, developing model-based edits and allocations, and evaluating data quality over time. Collaborating agencies have benefited through access to reports and tabulations to better administer their programs.

Both the Census Bureau and the Food and Nutrition Service (FNS) of the United States Department of Agriculture (USDA) would like to build on the successes of the DARIS project by encouraging State and District of Columbia Agencies to share Nutrition Assistance data with the Census Bureau. Data sharing and analysis of linked files are solely for statistical purposes, not for enforcement purposes. The Nutrition Assistance data are and will remain confidential, whether in their original form or when comingled or linked.

The Census Bureau will link the Nutrition Assistance data with other records at the Census Bureau, including but not limited to data from the SIPP, Current Population Survey, and the American Community Survey. The
