Hanover Foods Corporation v. Columbia Gas Transmission, LLC; Notice of Complaint

Take notice that on June 13, 2013, pursuant to the Natural Gas Act, 15 U.S.C. 717 *et seq.* and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206, Hanover Foods Corporation (Complainant) filed a formal complaint against Columbia Gas Transmission, LLC (Respondents), for improperly exercising the right of condemnation and pipeline construction over the Complainant's property under a thirty-year old blanket certificate issued by the Commission, as more fully explained in the complaint.

Hanover Foods Corporation certifies that copies of the complaint were served on the contacts for the Respondent as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214).

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Docket No. PF13-9-000]

Magnolia LNG, LLC; Liquefied Natural Gas Limited; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Magnolia Liquefied Natural Gas Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Magnolia Liquefied Natural Gas Project (Magnolia LNG Project) involving construction and operation of facilities by Magnolia LNG, LLC (Magnolia) in Calcasieu Parish, Louisiana. The Commission will use this EIS in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EIS. Please note that the scoping period will close on July 19, 2013.

You may submit comments in written form or verbally. Further details on how to submit written comments are in the Public Participation section of this notice. In lieu of or in addition to sending written comments, the Commission invites you to attend the public scoping meeting scheduled as follows:

FERC Public Scoping Meeting, Magnolia LNG Project, July 11, 2013; 6:00 p.m. local time.

Historic Cash & Carry Building, 801 Enterprise Blvd., Lake Charles, LA 70601.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

Summary of the Planned Project

Magnolia, a newly formed subsidiary of Liquefied Natural Gas Limited, plans to build, own, and operate the Magnolia LNG facility located on land at the Port of Lake Charles within Calcasieu Parish, south of Lake Charles, Louisiana. The

facility would receive natural gas from North American sources via an existing pipeline and would liquefy and store it for export and domestic use.

The Magnolia LNG Project would consist of the following facilities:

- Four liquefaction trains, with a capacity of 2.0 metric tons per annum (mtpa) for a total of 8.0 mtpa nominal capacity;
- approximately 200 feet of interconnect pipeline located entirely within the project site;
- two LNG storage tanks with a capacity of approximately 160,000 cubic meters each;
- an LNG vessel loading terminal and berth; and
- an LNG truck loading area, as well as other ancillary facilities.

The general location of the project facilities is shown in Appendix 1.¹

Land Requirements for Construction

The planned liquefaction facilities would be constructed on an approximately 108-acre parcel of land located within Industrial Canal South Shore PLC Tract 475 at the Port of Lake Charles. The construction of the LNG vessel loading terminal and berth would require approximately 1.3 million cubic yards of material to be dredged from the Industrial Canal. The location is zoned for heavy industrial use on an industrial canal off the main Calcasieu River Ship Channel. Magnolia is still in the planning phase for the Magnolia LNG Project and some additional workspace requirements have not been finalized.

The EIS Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of an authorization under Section 3a of the Natural Gas Act. NEPA also requires us² to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EIS on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EIS. We will consider all
