

- Review of NASA Unmanned Aircraft System (UAS) Integration into the National Airspace System (NAS) Phase 2 Activity Selection

- Discussion on Research Efforts on Autonomy

- Discussion on Final Recommendations Towards Future/ Follow On Projects

It is imperative that these meetings be held on this date to accommodate the scheduling priorities of the key participants. Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid photo ID to Security before access to NASA Headquarters. Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 working days prior to the meeting: Full name; gender; date/place of birth; citizenship; visa information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/ position of attendee; and home address to Ms. Brenda L. Mulac at fax 202-358-3602. U.S. citizens and Permanent Residents (green card holders) are requested to submit their name and affiliation 3 working days prior to the meeting to Ms. Brenda L. Mulac at fax 202-358-3602 or email at brenda.l.mulac@nasa.gov. For questions, please call Ms. Brenda L. Mulac at 202-358-1578.

Patricia D. Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-13-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Information Security Oversight Office

[NARA-13-0030]

National Industrial Security Program Policy Advisory Committee (NISPPAC)

AGENCY: National Archives and Records Administration.

ACTION: Notice of Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act (5 U.S.C. app 2) and implementing regulation 41 CFR 101-6, announcement is made for the following

committee meeting to discuss National Industrial Security Program policy matters.

DATES: The meeting will be held on July 17, 2013 from 10:00 a.m. to 12:00 p.m.

ADDRESSES: National Archives and Records Administration, 700 Pennsylvania Avenue NW., Archivist's Reception Room, Room 105, Washington, DC 20408.

SUPPLEMENTARY INFORMATION: This meeting will be open to the public. However, due to space limitations and access procedures, the name and telephone number of individuals planning to attend must be submitted to the Information Security Oversight Office (ISOO) no later than Friday, July 12, 2013. ISOO will provide additional instructions for gaining access to the location of the meeting.

FOR FURTHER INFORMATION CONTACT:

David O. Best, Senior Program Analyst, ISOO, National Archives Building, 700 Pennsylvania Avenue NW., Washington, DC 20408, telephone number (202) 357-5123, or at david.best@nara.gov. Contact ISOO at ISOO@nara.gov and the NISPPAC at NISPPAC@nara.gov.

Dated: June 19, 2013.

Patrice Little Murray,

Acting Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, *Public Law 104-13*. This is the second notice for public comment; the first was published in the **Federal Register** at 78 FR 1266 and two comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

Comments: Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Comments: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through publication of a 60-Day Notice in the **Federal Register** on January 8, 2013, at 78 FR 1266. We received two comments, to which we here respond.

The first comment came from the Bureau of Economic Analysis (BEA). They expressed general support for the survey and requested several additional data elements to be considered for future collection. NSF is in regular contact with BEA about their data needs and the feasibility of adding questions to the HERD or FFRDC Surveys to address these needs. As always, there is a need to balance the burden on the respondents with requesting new data

that will be of limited use to the general public. In recent years NSF has added several items requested by BEA to the questionnaire, where the additional detail posed no significant increase in burden for the institutions. NSF will continue to consider additional items in future years while still prioritizing respondent burden. There are no plans to incorporate these data items on the HERD or FFRDC Surveys for FY 2013.

The second comment came from the University of Rochester. They requested consideration for a modification to the survey to collect headcounts of principal investigators by academic discipline in order to allow more detailed benchmarking across academic institutions. NSF agrees this level of detail would be useful to academic institutions, and attempted to collect the personnel counts by department during the pre-testing phase of the HERD redesign. Unfortunately the effort was deemed too burdensome in addition to the other items being newly requested on the FY 2010 HERD Survey. Now that respondents have seen an overall reduction in burden for the HERD Survey, NSF will consider testing the personnel question by academic discipline during this clearance period. However, this effort will need to follow the completion of NCSES's ongoing effort to harmonize the academic disciplines across the NSF surveys. Once the fields are standardized across the surveys, the HERD Survey will need to make changes to the taxonomy of its R&D fields. After this taxonomy revision is completed, the personnel question can be revisited and revised to include totals by field if the testing proves successful.

Title: Higher Education Research and Development Survey.

OMB Approval Number: 3145-0100.

Overview of This Information Collection

The Higher Education Research and Development Survey (formerly known as the Survey of Research and Development Expenditures at Universities and Colleges) originated in fiscal year (FY) 1954 and has been conducted annually since FY 1972. The survey is the academic research and development component of the NSF statistical program that seeks to provide a "central clearinghouse for the collection, interpretation, and analysis of data on the availability of, and the current and projected need for, scientific and technical resources in the United States, and to provide a source of information for policy formulation by other agencies of the federal government," as mandated by the

America COMPETES Reauthorization Act of 2010 § 505, codified in the National Science Foundation Act of 1950, as amended. In recent years, NSF redesigned and expanded the survey to better reflect the current state of academic R&D. The redesigned survey was renamed the Higher Education R&D Survey and pilot-tested with a random sample of 40 institutions during the FY 2009 survey cycle. The revised survey began for all institutions with the FY 2010 cycle.

Use of the Information: The proposed project will continue the annual survey cycle for three years. The FY 2013 Higher Education R&D Survey will be administered to an expected minimum of 660 institutions. In addition, a shorter version of the survey asking for R&D expenditures by source of funding and broad field will be sent to approximately 325 institutions spending under \$1 million on R&D in their previous fiscal year. Finally, a survey requesting R&D expenditures by source of funds, cost categories (salaries, indirect costs, equipment, etc.), and character of work (basic research, applied research, or development) will be administered to the 39 Federally Funded Research and Development Centers.

The Higher Education R&D Survey will provide continuity of statistics on R&D expenditures by source of funding and field of research, with separate data requested on current fund expenditures for research equipment by field. Further breakdowns are collected on funds passed through to subrecipients and funds received as a subrecipient, and on R&D expenditures by field from specific federal agency sources. As of FY 2010, the survey also requests total R&D expenditures funded from foreign sources, R&D within an institution's medical school, clinical trial expenditures, R&D by type of funding mechanism (contracts vs. grants), R&D funded by the American Recovery and Reinvestment Act of 2009, and R&D by cost category (salaries, equipment, software, etc.). The survey also requests headcounts of principal investigators and other personnel paid from R&D funds, as well as a separate count of postdocs working on R&D.

Data are published in NSF's annual publication series *Higher Education Research and Development* and are available electronically on the World Wide Web. The survey is a fully automated Web data collection effort and is handled primarily by administrators in university sponsored programs and accounting offices. To minimize burden, institutions are provided with an abundance of

guidance and resources on the Web, and are able to respond via a downloadable excel spreadsheet if desired. Each institution's record is preloaded with the 2 previous years of comparable data that facilitate editing and trend checking. Response to this voluntary survey has exceeded 95 percent each year.

The average burden report for the FY 2011 survey was 50 hours for institutions reporting over \$1 million in R&D expenditures and 14 hours for those reporting less than \$1 million. The burden estimate for the FFRDC survey is 6 hours.

Dated: June 20, 2013.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[NRC-2013-0134]

Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

Background

Pursuant to Section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from May 30, 2013 to June 12, 2013. The last biweekly notice was published on June 11, 2013 (78 FR 35058).

ADDRESSES: You may submit comment by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0134. Address questions about NRC dockets to Carol
