

extranet providers, thereby helping to reduce network and total cost for its data products. Despite these enhancements and a dramatic increase in message traffic, ISE's fees for market data have, for the most part, remained flat. Moreover, platform competition has intensified as new entrants have emerged, constraining prices for both executions and for data.

The vigor of competition for market data is significant and the Exchange believes that this proposal clearly evidences such competition. ISE is offering a new pricing model in order to keep pace with changes in the industry and evolving customer needs. This pricing option is entirely optional and is geared towards attracting new customers, as well as retaining existing customers.

The Exchange has witnessed competitors creating new products and innovative pricing in this space over the course of the past year. ISE continues to see firms challenge its pricing on the basis of the Exchange's explicit fees being higher than the zero-priced fees from other competitors such as BATS. In all cases, firms make decisions on how much and what types of data to consume on the basis of the total cost of interacting with ISE or other exchanges. Of course, the explicit data fees are but one factor in a total platform analysis. Some competitors have lower transactions fees and higher data fees, and others are vice versa. The market for the proposed data is highly competitive and continually evolves as products develop and change.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹⁷ and Rule 19b-4(f)(2) thereunder,¹⁸ because it establishes a due, fee, or other charge imposed by ISE.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if

it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
