**SUPPLEMENTARY INFORMATION:** The BLM Shoshone Field Office, Shoshone, Idaho, intends to prepare a Plan amendment with an associated EIS for the Craters of the Moon Management Plan. This notice announces the beginning of the scoping process and seeks public input on issues and planning criteria. The planning area is located in south central Idaho and encompasses approximately 750,000 acres of BLM and National Park Service (NPS) managed lands in the Craters of the Moon. The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the planning process.

In 2008, Western Watersheds Project (WWP) filed a complaint in the United States District Court for the District of Idaho (Court) alleging the Secretary of the Interior and the BLM violated NEPA and FLPMA when the BLM issued Records of Decision on 16 Resource Management Plans (RMP) between 2004 and 2008, including the Craters of the Moon Management Plan. After briefing and oral argument, the Court found that although livestock grazing was deemed by the agency to be a major contributing factor to the decline of sage-grouse habitat in the Craters of the Moon, the Management Plan/EIS failed to adequately address the best science and the agency's own policies designed to
