may be submitted by any of the following methods:

Electronic Comments
• Use the Commission’s Internet comment form (http://www.sec.gov/rules/sro.shtml); or
• Send an email to rule-comments@sec.gov. Please include File No. SR–BATS–2013–035 on the subject line.

Paper Comments
• Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File No. SR–BATS–2013–035. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet Web site (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission’s Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing will also be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR–BATS–2013–035 and should be submitted on or before July 26, 2013.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.58

Kevin M. O’Neill,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Approving Proposed Rule Change To Require That All Locked-In Trade Data Submitted to It for Trade Recording Be Submitted in Real-time

June 28, 2013.

I. Introduction

On April 30, 2013, the National Securities Clearing Corporation (“NSCC”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change SR–NSCC–2013–05 pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)1 and Rule 19b–4 thereunder.2 On May 14, 2013, NSCC filed with the Commission Amendment No. 1 to the proposed rule change.3 The proposed rule change was published for public comment in the Federal Register on May 20, 2013.4 The Commission received one comment letter to the proposed rule change.5 For the reasons discussed below, the Commission is granting the proposed rule change.

II. Description

NSCC filed the proposed rule change to require that all locked-in trade data submitted to NSCC for trade recording be submitted in real-time,6 and to prohibit pre-netting7 and other practices that combine two or more trades prior to their submission to NSCC (collectively, “Pre-netting”).

8 QSRs are NSCC members (“Members”) that either (i) operate an automated execution system where they are always the contra side of every trade, (ii) are the parent or affiliate of an entity operating such an automated system, where they are the contra side of every trade, or (iii) clear for a broker-dealer that operates such a system and the subscribers to the system acknowledge the clearing Member’s role in the clearance and settlement of these trades.

9 One executing market with very low trade volume does not yet submit trades in real-time.

10 Files submitted to NSCC by The Options Clearing Corporation (“OCC”) relating to option exercises and assignments (Procedure III, Section D–Settlement of Option Exercises and Assignments) will not be required to be submitted in real-time. OCC’s process of assigning option assignments is and will continue to be an end-of-day process.

11 Trades executed in the normal course of business between a Member that clears for other broker-dealers, and its correspondent, or between correspondents of the Member, which correspondents(s) is not itself a Member and settles transactions processed at NSCC are locked-in trades submitted to NSCC in real-time.8

2 QSRs submit trades executed on their respective markets in real-time, representing approximately 91% of the locked-in trades submitted to NSCC today. The rule change will require that all locked-in trades submitted for trade recording by SROs and QSRs be submitted to NSCC in real-time.9

3 In Amendment No. 1, NSCC corrected a typographical error in the text of its Rules & Procedures (“Rules”) related to the proposed rule change.

5 Comment letter from Kermit Kubitz dated June 10, 2013, http://www.sec.gov/comments/sr-nscc-2013-05/nscc201305.shtml. The commenter supports the proposed rule change’s requirement “to submit trades without any pre-processing . . .” and believes that, “any cost associated with submitting higher volumes of data from limiting pre-netting is small compared to the risks and costs of inaccurate data which might result from submission of other than accurate trade data.”

6 The term “real-time,” when used with respect to trade submission, will be defined in Procedure XIII (Definitions) of NSCC’s Rules as the submission of such data on a trade-by-trade basis promptly after trade execution, in any format and by any communication method acceptable to NSCC.

7 According to NSCC, any pre-netting practices include: (i) “summarization” (i.e., a technique in which the clearing broker nets all trades in a single CUSIP by the same correspondent broker into fewer submissions); (ii) “compression” (i.e., a technique to combine submissions of data for multiple trades to the point where the identity of the party actually responsible for the trades is masked); (iii) netting; and (iv) any other practice that combines two or more trades prior to their submission to NSCC (collectively, “Pre-netting”).

8 See, e.g., GSD Rule 11 (Netting System), Section 3 (“All trade data required to be submitted to the Corporation under this Section must be submitted on a trade-by-trade basis with the
Further, NSCC does not expect the rule changes to impact trade volumes significantly. According to NSCC, the majority of trades are currently being submitted to NSCC in real-time on a trade-by-trade basis, and NSCC is operationally capable of managing trade volumes that are multiple times larger than the historical peak volumes.

In the wake of recent industry disruptions, industry participants have been focused on developing controls to address the risks that arise from technology issues. A comment letter submitted to the Commission in advance of its Technology and Trading Roundtable, held in October 2012, and signed by a number of industry participants including SROs, broker-dealers, and buy-side firms, supported this rule change as a crucial component of the industry controls that could increase market transparency and ultimately mitigate risks associated with high-frequency trading and related technology.13

Implementation Timeframe

NSCC will advise Members of the implementation date of the rule change through issuance of an NSCC Important Notice. The rule change will not be implemented earlier than seven (7) months from the date of Commission approval.

III. Discussion

Section 19(b)(2)(C) of the Act 14 directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and rules and regulations thereunder applicable to such organization. Section 17A(b)(3)(F) of the Act 15 requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions. The Commission finds that the rule change is consistent with these requirements because the receipt of locked-in trade data on a real-time basis should permit NSCC’s risk management processes to monitor trades closer to trade execution on an intra-day basis and identify and manage any issues relating to excessive risk exposure earlier on a closer to real-time basis, thereby potentially minimizing a source of operational risk and facilitating the prompt and accurate clearance and settlement of securities transactions.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act 16 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, 17 that the proposed rule change (File No. SR–NSCC–2013–05) be, and hereby is, approved.18

For the Commission by the Division of Trading and Markets, pursuant to delegated authority. 19

Kevin M. O’Neill,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations;
Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Related to Trades for Less Than $1

June 28, 2013

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),1 and Rule 19b–4 thereunder,2 notice is hereby given that on June 28, 2013, the Chicago Board Options Exchange, Incorporated (“Exchange” or “CBOE”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A) of the Act 3 and Rule 19b–4(f)(6) thereunder.4 The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to extend its program that allows transactions to take place at a price that is below $1 per option contract through January 5, 2014. The text of the proposed rule change is available on the Exchange’s Web site (www.cboe.org/Legal), at the Exchange’s Office of the Secretary and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

An “accommodation” or “cabinet” trade refers to trades in listed options on the Exchange that are worthless or not actively traded. Cabinet trading is generally conducted in accordance with the Exchange Rules, except as provided in Rule Exchange 6.54, Accommodation Liquidations (Cabinet Trades), which sets forth specific procedures for engaging in cabinet trades. Rule 6.54 currently provides for engaging in cabinet trades. Rule 6.54 currently provides for cabinet transactions to occur via open outcry at a cabinet rate price of $1 per option contract in any option series open for trading in the Exchange, except that the Rule is not applicable to trading in option classes participating in the Penny Pilot Program. Under the procedures, bids and offers (whether opening or closing a position) at a price of $1 per option contract may be represented in the trading crowd by a Floor Broker or by a Market-Maker or provided in response
